2022-APHIS-04223-F	Megilley, Isabelle	-	This correspondence is in regards to referral of a Freedom of Information Act (FOIA) request. The National Oceanic and Atmospheric Administration (NOAA) received a FOIA request in FOIA online from Ms. Izzy Megilley, received by our office on June 8, 2020, referenced as DOC-NOAA-2020-001388. The requester seeks: ...any and all information on dolphins Ranier (NOA0005062 / AZA 282), Calvin (NOA0000707, AZA 525) and Malabar (NOA0005935, AZA 709), but also on any other dolphins previously at the facility, including both living and deceased dolphins. This would include marine mammal inventory reports, transfers, pregnancies, autopsy reports, medical records, prescribed drugs, scientific research and any other possible information. In addition, the NMFS 2017 Marine Mammal Inventory Report (Complete Cetaceans and Pinnipeds) Sort-Ref:20170215 states that Calvin is being kept at the Disney facility for 'scientific research', where the others are under the purpose 'public display'. Despite this, I haven't been able to find out what this research entails so would be very grateful if you could also provide any information on that. We located 1 record with U.S. Department of Agriculture, Animal and Plant Health Inspection Service (APHIS) equities. Per our governing regulations, 15 CFR § 4.5(b), we are referring this record to your agency for direct response to the requester. The FOIA online screenshot of the request is enclosed and the referred document is uploaded into Box.net, folder NOAA with APHIS equities, folder DOC-NOAA-2020-001388.	6/17/2022
