**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

		Quail (Other)					

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

		Finches, House					

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

		Opossums, Virginia					

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

		Ducks, Long-tailed					

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

		Plovers, Black-bellied					

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

			Intentional				22,500

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

		Pelicans, Brown					
			Intentional				5
		Pheasants, Ring-necked					

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

*About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

		Terns, Caspian					
			Intentional				305
		Turkeys, Wild					

**About Capture/Restraint Method: This column reports the primary method or tool used to capture, restrain, or identify/target the animals addressed. This MAY NOT have been the method or tool used to kill, euthanize, or free/relocate, the animal captured. When animals are captured and/or restrained, WS employees use methods or tools to euthanize, and approved handling and transport are used to free or relocate.*

^ Removed/Destroyed only counts the removal or destruction of dens and burrows.

Invasive species in this report are highlighted and displayed in red. Each year, Wildlife Services manages damage caused by many invasive species.

Table G. Animals Taken by Component/Method Type and Fate by Wildlife Services - FY 2013

Capture/Restraint Method *	State	Species	Intentional / Unintentional	Killed / Euthanized	Removed/ Destroyed^	Freed/Released/ Relocated	Dispersed
Whistlers/Screamers							
	OH						
		Turkeys, Wild
