

Finish the Fight Against Scrapie!

Slaughter facilities that save adult sheep and goat heads can get paid.

Why Scrapie?

Scrapie kills sheep and goats while limiting exports. The industry needs your help in finding the last case of scrapie in the U.S. and to show when the U.S. is free of scrapie.

How to Help?

1. Set up a sampling agreement
2. Save heads of adult* sheep and goats
3. Store heads and ALL identification (such as ear tags) in refrigeration

***Animals must be at least 18 months of age.**
