<a href="#">2020-APHIS-05649-F</a>	Feldman, Ben	Asta Entertainment LLC	8/5/2020	9/11/2020	Violations, enforcement actions, investigations, photographs or images, inspections and criminal referrals relating in whole or in part to the Philadelphia Insectarium & Butterfly Pavilion located at 8046 Frankford Avenue, Philadelphia, PA 19136, or any of its former names, including Steve's Bug Off, or any of its former employees or owners or operators, including, but not limited to, Steve Kanya, John Cambridge, Wlodeck Lapkiewicz, and Christopher Tomasetti. (Date Range for Record Search: From 06/01/2013 To 08/05/2020) (Date Range for Record Search: From 6/1/2013 To 8/5/2020)
<a href="#">2020-APHIS-05948-F</a>	Anderson, Greta	Western Watersheds Project	8/24/2020	9/22/2020	I am specifically asking for records pertaining to the actions of Wildlife Services in New Mexico between 1998 and the date of this request. As such, I am asking for: 1. Any and all records that describe or reveal protocols – past, present, and draft future – for conducting depredation investigations in cases where Mexican wolves are suspected of predation. I want any written instructions, guides, memoranda or other records that document the process by which Wildlife Services is supposed to investigate livestock depredations in Mexican wolf habitat. I would like this information as it pertains directly to Mexican wolves, for New Mexican wildlife in general, or any regional guidance that would inform Mexican wolf investigations as conducted by Wildlife Services. By records, I mean any and all email, draft documents, attachments, notes, meeting notes, field notes, field guides, formal and informal step-by-step lists for livestock depredation investigations. I seek records responding to this request that are considered "official" and "unofficial" by responsive parties. If these investigation protocols are informal or unofficial, I would like any records that provide approval for the use of the protocols by line officers within the agency. I have a keen interest in understanding how depredations have been investigated since the beginning of the Mexican wolf recovery program and to be able to track changes to the protocol over time. (Date Range for Record Search: From 03/01/1999 To 08/24/2020)
<a href="#">2020-APHIS-05950-F</a>	Anderson, Greta	Western Watersheds Project	8/24/2020	9/22/2020	I am seeking any and all records that discuss or reveal conversations, correspondence, or other communications between and among federal agencies regarding Mexican wolf depredation investigations in New Mexico as conducted by Wildlife Services. I am seeking information that would inform the public understanding of what has been occurring at the legal and law enforcement investigative level with regard to Mexican wolf depredation investigations. My organization has been actively exposing flaws and inconsistencies with the depredation reports and I would like records that explain or elucidate how the Wildlife Services has been communicating with other federal agencies, e.g. USDA Forest Service or US Fish and Wildlife Service, regarding depredation events on public lands. I am particularly but not exclusively interested in communications between the offices of inspectors general of the agencies with regard to these investigations. By records, I mean documents, emails, phone logs, reports, meeting notes or any other records that provide information responsive to this request. In essence, I want to know whether or not the Offices of Inspector General (OIG) for any of the federal agencies have been in communication with each other with regard to the veracity and consistency of Mexican wolf depredation investigations. If the OIG has not been involved, and in addition, I seek records that reflect any other internal or external inquiries into the investigations. (Date Range for Record Search: From 01/01/2019 To 08/31/2020)
<a href="#">2020-APHIS-05581-F</a>	Drankiewicz, Lilly	-	8/3/2020	8/31/2020	I am looking for the inspection report and any other documentation, photos, etc associated with the attached Emergency Action Notice issued on July 22, 2020. Specifically, looking for the inspection report, any lab reports, information and briefing memorandums, investigation reports and internal and external email correspondence associated with the attached Emergency Action Notice issued July 22, 2020. (Date Range for Records Search: From 05/01/2020 to 08/01/2020) (Date Range for Record Search: From 5/1/2020 To 8/1/2020)
<a href="#">2020-APHIS-05804-F</a>	Lambert, Emily	-	8/14/2020	9/21/2020	A List of all Applications and Approved Live Animal Import and Export Permits, including what animals were imported and exported, how many, and the name of the permit holder. (Date Range for Record Search: From 01/01/2010 To 08/14/2020)

2020-APHIS-06025-F	Armo, Kylie	-	8/25/2020	9/23/2020	hereby requests access to copies of any and all records – including, but not limited to, applications, permits, memorandum, correspondence, logbooks, inspection records, docking reports, cargo manifests and ship documents – in the possession, custody, or control of the U.S Department of Agriculture (USDA) and/or the Plant Protection and Quarantine (PPQ) unit related to five (5) foreign-flag vessels. Below we have listed the five vessels of interest. For each vessel, we are primarily interested in their activities within a specific time frame. The period of interest is included in parentheses next to the name of each ship. For your reference, we have also noted the International Maritime Organization (IMO) number associated with each vessel. • Ore Chief (1965-1966). IMO Number: 5264314 • Ore Transport (1967-1968). IMO Number: 5264431 • Ore Meridian (1970-1971). IMO Number: 5264352 • Petro Kure, also known as Petrokure (1962 -1963). IMO Number: 5415652 • Frisia (1971), went by the name Universe Challenger until 1970. IMO Number: 5121720 Although we would like to request any documentation you hold related to these vessels, we are primarily interested in determining when and where these vessels entered, departed, anchored, or docked within U.S. waters during the identified time periods. We are particularly interested in whether or not any of these vessels entered New York Harbor and/or docked at shipyards in Brooklyn (specifically the Brooklyn Navy Yard, which is also known as the New York Navy Yard) or Staten Island. The vessels of interest were owned by Universe Tankships, Inc. (a Liberian corporation) and were in "the care of" National Bulk Carriers, Inc. (a shipping company headquartered in New York City). Shipping magnate Daniel K. Ludwig of New York managed both of these entities and is often identified as the owner of the vessels. All five of the ships were foreign-flag vessels that flew the Liberian flag.
