

POTENTIAL PESTICIDES TO USE AGAINST THE CAUSATIVE AGENTS OF SELECTED FOREIGN ANIMAL DISEASES IN FARM SETTINGS

This table is meant to assist persons in finding U.S. Environmental Protection Agency (EPA)-registered pesticides that may be used against the causative agents of selected foreign animal diseases (FADs)¹ in farm settings, as permitted by the EPA-registered product label. This table does not include pesticides registered for use against vectors that may transmit the pathogen. This table may not be an all-inclusive list of EPA-registered pesticides that could be used against the causative agent of each FAD listed below. This table primarily includes pesticide products that the National Pesticide Information Retrieval System (NPIRS®)² indicated were EPA-registered for use against the listed disease pathogen in farm premises and related structures and equipment. The information was obtained from the NPIRS® from January 21, 2016 to February 16, 2016.

While an applicator may utilize this list to assist in finding potential registered products, it is the applicator's responsibility to ensure that the product label indicates the applicable pests and use sites. Applicable pests and use sites must be specified on the product label unless the product is being used as permitted by the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 2(ee)(2)³, in which case applicable use sites must be specified, but pests need not be specified. The NPIRS® indicates there are no pesticides registered for use against a number of FADs. When this is the case, the United States Department of Agriculture (USDA) Animal and Plant Health Inspection Service (APHIS) Veterinary Services (VS) recommends that applicators find products that are efficacious and that are permitted under FIFRA section 2(ee)(2). Applicators may legally apply registered pesticide products against any FAD provided that the applicable use sites (e.g., farm premises and related structures and equipment) are listed on the product label and that all applicable label use directions and safety precautions are followed.

Product labels are found on the product container. Product labels may also be found on EPA's Pesticide Product Label System (PPLS)⁴. Applicators should note that the product labels appearing on PPLS are the "master labels." Many products are sold for use with a product label that contains a subset of the use sites and pests found on the master label, so applicators must defer to the product label appearing on the pesticide container.

The inclusion of any product on this table does not imply endorsement of the product by USDA APHIS VS.

¹ Selected FADs were primarily obtained from the "Foreign Animal Diseases" or "Gray Book" (United States Animal Health Association, 2008. See https://www.aphis.usda.gov/emergency_response/downloads/nahems/fad.pdf).

² The National Pesticide Information Retrieval System (NPIRS®) is a collection of pesticide-related databases, applications, and web sites under the administration of the Center for Environmental and Regulatory Information Systems (CERIS) at Purdue University, West Lafayette, Indiana. The NPIRS® obtains product information on a monthly basis from the EPA Pesticide Product Information System (PPIS) website. This PPIS information, including registered use sites and pests listed on the EPA stamped approved label, is disseminated through the NPIRS® member and public websites and is provided for informational purposes only. Information derived from the NPIRS® does not constitute a label replacement or a recommendation. Before applying any pesticide, applicators must determine if the product under consideration is correct for the intended use site. Always check the container/package label to determine if the intended use site is included on the label. Read and follow label instructions before using any pesticide product. More information on the NPIRS® can be found at <http://ppis.ceris.purdue.edu/>. Errors in the PPIS data can be reported at this website using the Data Quality menu option.

³ FIFRA section 2(ee)(2): "TO USE ANY REGISTERED PESTICIDE IN A MANNER INCONSISTENT WITH ITS LABELING.—The term 'to use any registered pesticide in a manner inconsistent with its labeling' means to use any registered pesticide in a manner not permitted by the labeling, except that the term shall not include ... (2) applying a pesticide against any target pest not specified on the labeling if the application is to the crop, animal, or site specified on the labeling, unless the Administrator has required that the labeling specifically state that the pesticide may be used only for the pests specified on the labeling after the Administrator has determined that the use of the pesticide against other pests would cause an unreasonable adverse effect on the environment, ..."

⁴ To access the most recently approved product labels, see EPA's Pesticide Product Label System (PPLS) site at <http://iaspub.epa.gov/apex/pesticides/f?p=PPLS:1>. The pesticide product name, company name, or the EPA registration number can be used to access the product label in PPLS. If you enter the company name, a list of the company's products will appear. Select the product of interest. If you enter the product name or EPA registration number, a list of EPA-approved labels will appear in chronological order, with the most recent label appearing first. Click on the most recent date to obtain the most recent label.

DISEASE	EPA REG. NO.	PRODUCT NAME	MANUFACTURER (See table at end of document for contact information)	ACTIVE INGREDIENT(S)	PEST AND USE SITE(S)
African Horse Sickness	71654-6	Virkon S	The Chemours Company FC, LLC	Sodium chloride Potassium peroxydisulfate	<i>Use not approved in California</i> African horse sickness virus on all hard, non-porous surfaces, equipment, utensils, and instruments in kennels, stables, catteries, horse boxes, box stalls, tack, equipment, feed rooms, blankets, saddle pads, rugs, etc. (based on March, 2015 label)
African Swine Fever	211-25	Pheno Cen Germicidal Detergent	Central Solutions, Inc.	o-Phenylphenol, potassium salt p-tert-Amylphenol, potassium salt Potassium 2-benzyl-4-chlorophenolate	African swine fever virus in/on livestock pens, livestock manure (ground), livestock equipment, hog farrowing house, hog houses, animal quarters, animal feeding and watering equipment, farm equipment, and shoe baths
	211-62	Low pH Phenolic 256	Central Solutions, Inc.	o-Phenylphenol 2-Benzyl-4-chlorophenol	African swine fever virus in/on livestock premises, livestock feeding and watering equipment, livestock equipment, livestock transportation vehicles, hog farrowing houses, hog barns/houses/parlors/pens, farrowing equipment, animal feeding/watering equipment, animal equipment, animal transportation vehicles, and shoe baths
	69470-37	Clearon Bleach Tablets	Clearon Corp	Sodium dichloro-s-triazinetrione	African swine fever virus in/on animal living quarters, farm premises, and shoe baths
	71654-6	Virkon S	The Chemours Company FC, LLC	Sodium chloride Potassium peroxydisulfate	African swine fever virus in/on animal feed equipment, livestock barns, livestock pens, livestock stalls, livestock stables, livestock equipment, hog farrowing pen premises, hog barns/houses/parlors/pens, animal quarters, animal feeding and watering equipment, animal transportation vehicles, animal equipment, agricultural premises, agricultural equipment, railroad boxcars, transportation vehicles, and human footwear
	71847-2	Klor-Kleen	Medentech Ltd.	Sodium dichloro-s-triazinetrione	African swine fever virus in animal quarters and animal living quarters
71847-6	Klorsept	Medentech Ltd.	Sodium dichloro-s-triazinetrione	African swine fever virus in/on animal quarters, animal feeding/watering, animal equipment, and animal transportation vehicles	
Akabane Disease	<i>As per the data provided to NPIRS[®] by EPA, no products are registered* for use against akabane virus</i>				
Avian Influenza	106-81	Maxima RTU	Brulin & Company, Inc.	Alkyl dimethyl benzyl ammonium chloride Octyl decyl dimethyl ammonium chloride Didecyl dimethyl ammonium chloride Diocetyl dimethyl ammonium chloride	Avian influenza type A/Mich virus in/on animal cages, animal feeding/watering equipment, animal equipment, and animal transportation vehicles
	211-25	Pheno Cen Germicidal Detergent	Central Solutions, Inc.	o-Phenylphenol, potassium salt p-tert-Amylphenol, potassium salt Potassium 2-benzyl-4-chlorophenolate	Avian influenza virus in/on livestock pens, livestock manure, livestock equipment, animal quarters, poultry house premises, poultry feeding equipment, poultry watering equipment, poultry transportation vehicles, animal feeding/watering equipment, egg rooms, hatchery equipment, hatchery premises, farm equipment, and shoe baths
	211-36	Tri-Cen	Central Solutions, Inc.	Sodium 2-benzyl-4-chlorophenolate Sodium o-phenylphenolate p-tert-Amylphenol	Avian influenza virus in/on livestock premises, livestock feeding and watering equipment, livestock equipment, livestock transportation vehicles, air treatment (animal quarters), animal quarters, poultry cages, poultry house premises, poultry feeding equipment, poultry watering equipment, poultry equipment, poultry transportation vehicles, animal feeding and watering equipment, animal transportation vehicles, commercial egg transportation vehicles, egg handling premises, hatchery equipment, hatchery premises, agricultural premises, agricultural equipment, shoe baths, barns, and poultry processing equipment
	211-50	Q5.5-5.5NPB-2.5HW	Central Solutions, Inc.	Alkyl dimethyl benzyl ammonium chloride Octyl decyl dimethyl ammonium chloride Didecyl dimethyl ammonium chloride Diocetyl dimethyl ammonium chloride	Avian influenza virus in/on livestock premises, livestock feeding equipment, livestock watering equipment, livestock equipment, livestock transportation vehicles, poultry brooder houses, poultry house premises, poultry feeding and watering equipment, poultry equipment, poultry transportation vehicles, animal waste materials, commercial egg handling equipment, commercial egg transportation vehicles, egg rooms, egg handling premises, hatchery equipment, hatchery premises, and shoe baths
	211-62	Low pH Phenolic 256	Central Solutions, Inc.	o-Phenylphenol 2-Benzyl-4-chlorophenol	Avian influenza virus in/on livestock premises, livestock feeding and watering equipment, livestock equipment, livestock transportation vehicles, poultry house premises, poultry feeding equipment, poultry watering equipment, poultry transportation vehicles, animal feeding/watering equipment, animal equipment, animal transportation vehicles, commercial egg transportation vehicles, hatchery equipment, hatchery premises, and shoe baths
