

**Request Approval to Access Information for
National Veterinary Stockpile Federal, State, Tribe, and Territory Planners**

Thank you for your interest in National Veterinary Stockpile (NVS) preparedness. A restricted website is available for Federal, State, and Tribal officials engaged in NVS planning and preparedness activities. The website for NVS planners contains sensitive information, such as after action reports/improvement plans, planning tools, examples of State, Tribe, and Territory NVS Plans, questions and answers, and the *NVS Logistics Catalog*, to assist in developing and maintaining a state NVS plan. If you are an NVS planner and wish to access the NVS planner's website, email a request to nvs@usda.gov. The NVS staff will respond promptly.
