Inspection

Type: ROUTINE INSPECTION

Date: MAR-04-2004

3.2 (d)

INDOOR HOUSING FACILITIES.

The floors of indoor housing facilities, and any other surfaces in contact with the animals, must be impervious to moisture. The concrete floors in the dog buildings are no longer impervious to moisture. This does not allow for thorough cleaning and sanitizing practices and may increase odor problems. These surfaces need to be resealed by watersealing, painting or other appropriate means to ensure for proper cleaning and sanitizing practices. This affects 390 dogs (298 adults/92 puppies). Correct by 6/1/04.

Inventory:

Adult dogs-298

Puppies-92

Last inspection: 4/1/02

Inspection conducted in the presence of (b)(6), (b)(7)c

Prepared By:

MELISSA SWANDA, A C I , USDA, APHIS, Animal Care
