Inspection
Type: ROUTINE INSPECTION
Date: FEB-14-2005

**3.25 (b) REPEAT NCI
FACILITIES, GENERAL.**

Section 3.25(b) Storage: Supplies of food and bedding shall be stored in facilities which adequately protect such supplies against spoilage or deterioration and infestation or contamination by vermin. Supplies shall be stored in containers with tightly fitting lids.

There was an open bag of guinea pig food in the original animal room and two open bags of bedding in the new hamster breeding room. Open bags of food and bedding need to be stored in containers with a tightly fitting lid. The miscellaneous clutter needs to be removed from the storage area in the original animal room to prevent contamination of the food and bedding.

**3.31 (b) REPEAT NCI
SANITATION.**

Section 3.31(b) Housekeeping: Premises shall be kept clean to facilitate the prescribed husbandry practices set forth in this subsection.

- (1) The floor of the original animal room still has spilled bedding and animal waste. There are still miscellaneous items accumulating around the food and bedding storage area.
- (2) The new hamster breeding room still needs covers for the lights and covers over the outlets. The original animal room needs a good cleaning and the new hamster room needs to be finished.
