INSPECTION REPORT

(b)(6), (b)(7)(c)
ARTS ANIMALS

Customer ID: 7117
Certificate: 23-B-0156

13 LONG LANE
ALBURTIS, PA 18011

Site: 001
ARTS ANIMALS

Inspection
Type: ROUTINE INSPECTION
Date: MAR-27-2006

2.40 (a) (1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Section 2.40(a)(1) Veterinary care: Each dealer shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer.

The facility's program of veterinary care, APHIS Form 7002, could not be located during this inspection. A blank program of veterinary care form was left with the facility for the veterinarian to complete if the original can not be found. The facility must have a written program of veterinary care to follow to maintain the health of the animals when using a part-time veterinarian or consultant.

Correct by April 17, 2006.

3.31

SANITATION.

Section 3.31(a)(1) Cleaning and sanitization of primary enclosures: Primary enclosures shall be cleaned and sanitized often enough to prevent an accumulation of excreta or debris.

There is urine scale building up in the corners of the hamster enclosures. The cleaning process is not removing the urine scale in the corners of the primary enclosures. The urine scale build up can be a source of contamination for the hamsters and the enclosures can not be properly sanitized with the disinfectant when the enclosures have urine scale in the corners. The cleaning process must be able to remove the urine scale so the enclosures can be sanitized to maintain the health of the animals.

Correct by April 17, 2006.
