SUNNY MORNING KENNEL**

**Inspection  
Type: ROUTINE INSPECTION  
Date: OCT-20-2005**

**3.1 ( c ) ( 1 ) ( i )**

**HOUSING FACILITIES, GENERAL.**

General requirements. The surfaces of housing facilities--including houses, dens, and other furniture-type fixtures and objects within the facility--must be constructed in a manner and made of materials that allow them to be readily cleaned and sanitized, or removed or replaced when worn or soiled. Interior surfaces and any surfaces that come in contact with dogs or cats must:

(i) Be free of excessive rust that prevents the required cleaning and sanitization, or that affects the structural strength of the surface;

The enclosures in the isolation building and the mommy building have a buildup of rust starting on them. These enclosures need to be free of rust so that they can be easily sanitized.
