BROWN'S OAKRIDGE EXOTICS

Inspection

Type: ROUTINE INSPECTION

Date: NOV-04-2003

RT 1 - 17732 N DAIRY FARM RD  
SMITHFIELD, IL 61477

3.131 ( a )

SANITATION.

(a) Cleaning of enclosures. Excreta shall be removed from primary enclosures as often as necessary to prevent contamination of the animals contained therein and to minimize disease hazards and to reduce odors.

\*\*\*The enclosure containing the male lion is not constructed in a way that allows the lion to be shifted/moved to allow safe/easy access for cleaning. The enclosure is starting to have an accumulation of bones and tall weeds that need to be removed. Some sort of shift or other means to safely and easily contain the lion needs to be added so the enclosure can be cleaned as needed.

Correct by: January 31, 2004
