Inspection Type: ROUTINE INSPECTION

Date: JUL-02-2003

2.40 (a) (1) REPEAT NCI

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The written Program of Veterinary Care is still incomplete. Nothing has been done to update the program so that it reflects what is being done regarding routine veterinary care by the facility management and the attending veterinarian, since the previous inspection on June 3, 2003, when this subject was discussed at length with licensee, and a new APHIS Form 7002 and copy of AC Policy #3 were mailed via certified mail to licensee on June 10, 2003. This non-compliance is a continuing and repetitive issue.

Attempted to call the attending veterinarian to discuss the program of veterinary care. The AV is not available on Wednesdays and Thursdays, thus no contact was made.

The raccoon with the bad eye had been examined and treated since the June 3 inspection.

Attached to this report is a copy of the Animal Welfare Regulations, with the sections 2.40 and 2.75 earmarked and highlighted for new responsible person to follow and keep records and PVC current, complete, and accurate.

Also included is another copy of AC Policy #3, Veterinary Care, APHIS Form 7002, and Tech Note on Veterinary Care.
