Type: ROUTINE INSPECTION

Date: SEP-22-2005

**9600 MEDICAL CENTER DRIVE
ROCKVILLE, MD 20850**

2.31 (e)(2)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The A proposal to conduct an activity involving animals, or to make a significant change in an ongoing activity involving animals, must contain a rationale for involving animals, and for the appropriateness of the species and numbers of animals to be used.

(b)(4) was originally approved by the IACUC for the use of rhesus, cynomolgous, and pig-tailed macaques. The protocol was later amended to include New World non-human primates, i.e. squirrel monkeys. Although the change in species was submitted as an amendment to the protocol, no justification concerning the appropriateness of this new species was given. Correct on all active and subsequent studies when similar major changes are approved.
