3.8 (a)

EXERCISE FOR DOGS.

Research Facilities must develop, document and follow an appropriate plan to allow dogs the opportunity for exercise.

Dogs housed individually must be provided with additional exercise opportunity if the available floor space in primary enclosure is not at least double floor space required by that dog.

7 dogs housed in room 9104 are not currently provided double their required floor space and additional opportunity for exercise shall be provided. These are all similar sized hounds requiring at least 1836 sq in of floor space. Total sq in of enclosure is 3456 which does not allow double required floor space to meet exercise requirement.

Correct by 6-4-04.

(b)(6), (b)(7)c

accompanied me on this inspection.
