2017-APHIS-03346-F	Winders, Delcianna	Harvard Law School	4/4/2017	5/2/2017	This is a request for all records related to analyses of the effectiveness of sanctions or penalties under the Animal Welfare Act from the time period June 1, 2004, through December 31, 2005. According to a memorandum to the Animal Care Management Team that I recently received in response to FOIA request 16-4068 (page 4 of responsive records), "Dr. Miava Binkley performed an enforcement analysis in June of 2005 to compare relative effectiveness for each type of penalty from LOIs to OGC cases. Her data was collected from 2002, dealing with observational data from the Eastern Region. Through surveys Dr. Binkley discovered that 37% of these penalties were from lack of will to comply, an external problem, she concluded with a positive outcome towards the effect of LOIs and 7060s." I would like a copy of Dr. Binkley's analysis, and any related records. In case it helps with locating the records, please note that according to a June 9, 2010, email from Nora E. Wineland to Robert Gibbens and Elizabeth Goldentyer, Dr. Corker had shared a copy of Dr. Binkley's report with Dr. Wineland around that time period (page 16 of records provided in response to FOIA request 16-4068).
