

BE A BEETLE BUSTER FAMILY

The Asian longhorned beetle (ALB) hurts our trees and our communities. People like you helped get rid of the ALB in Illinois and New Jersey. Now it's your turn!

BINGO SEARCH

Work as a team to beat the ALB at its own game! Can your family find a whole row and get a "bingo"? Take this board with you when you go outside, and keep track of what you find. You can play all year-round!

 An insect on a tree	 People searching for ALBs	 Host Tree: Maple	 Park ranger or landscaper Ask about the ALB!
 ALB Look-alike: Whitespotted Sawyer	 Host Tree: Willow	 Any beetle, like a ladybug, that has a hard covering over its wings	 Host Tree: Horse Chestnut
 Host Tree: Elm	 People planting non-host trees	 A hole in a tree	 Non-Host Tree: Oak
 People using firewood where they cut it	 ALB Look-alike: Eyed Elater	 Non-Host Tree: Pine	 ALB Look-alike: Western Conifer Seed Bug

INSTANT WINNER!

If you find any of these signs and report online, you immediately win the game! Start the game again and keep playing.

You can see the ALB from June – October, but you can spot the signs year-round!

 Asian longhorned beetle	 Round exit holes
 Egg sites on bark	 Frass (wood shavings) on bark or at tree base
 Larvae in chopped wood	 Pupae in chopped wood

BONUS POINTS

Play "I See My Tree!"

Each person in your family chooses one tree from the board. If you see your tree, you get a point. If someone else in your family sees your tree first, they get the point!

+1

Grab your "Search and Report" kit and hunt for the ALB!

The ALB ID Card (Download at www.AsianLonghornedBeetle.com.) It shows you what to look for and how to report what you find.

A jar or plastic container with a lid to collect beetles

Your bingo search board

Binoculars, if you have them, to look high in the trees

A camera or cell phone to snap pictures of signs of the ALB

Report ALB signs using the Reporting Form at www.AsianLonghornedBeetle.com. Keep checking your trees.
