

**Basis for changes to the Pale Cyst Nematode (PCN) Regulated Area
May 6, 2011**

Since announcing the detection of a 10th PCN-infested field on March 21, 2011, 6,544 acres in Bingham and Bonneville County, ID have been added to the PCN regulated area. These fields were added to the regulated area due to their primary association with an infested field, in accordance with the PCN Final Rule (effective April 29, 2009), subpart 301.86-3(c)(2)(iii) *Criteria for designation of fields as infested fields and associated fields - Associated fields*. This change increases the current regulated area to 7,808 acres, of which 1,264 acres are infested fields.
