<u>FR</u>			
<u>CNMI</u>	Also, all other fruits and vegetables listed in this Reference Section as approved for entry into any other part or part of the United States may be imported into Guam and The Commonwealth of the Northern Mariana Islands with the exception of those fruits and vegetables which require a treatment as a condition of entry.		

¹ If the items listed here are from Cuba and are free from pests—refer them to Customs for disposition.

² Shipments from Jamaica may or may not be precleared. If they are precleared, the shipment must be accompanied by a FPQ Form 203 signed by the APHS inspector on site in Jamaica to validate foreign site preclearance. If the shipment was not precleared, INSPECT AND RELEASE.

⁴ If thyme is from Jamaica, require T101-n-2.

⁵ For corn smut galls, see Special Procedures—Regulatory Action to Take on Fresh or Frozen Corn Smut Galls Imported for Consumption, p. 2.31.

⁶ Ivy gourd (*Coccinia grandis*) is prohibited into Hawaii.

⁷ All outer green tissue must be removed leaving a white to off-white piece of the stem.

⁸ Shipments from Jamaica may or may not be precleared. If they are precleared, the shipment must be accompanied by a FPQ Form 203 signed by the APHS inspector on site in Jamaica to validate foreign site preclearance. If the shipment was not precleared, REQUIRE T101-f-3.

⁹ However, shelled pigeon peas from the Dominican Republic into Puerto Rico would not require treatment.
