<u>NA</u> & <u>NP</u>	Artichoke, globe (immature flower heads)	Cacao bean pod	
<u>SAG</u>	Cacao bean pod		

¹ If garlic (*Allium sativum*), see entry under Garlic.

² Only predeared shipments are authorized. The shipment must be accompanied by a PPO Form 203 signed by the APHS inspector on site in France to validate foreign site preclearance. If you conclude that the shipment was not predeared, REFUSE ENTRY.

³ If green is visible, REFUSE ENTRY.

⁴ Must be accompanied by a certificate issued by an official of the French Ministry of Agriculture stating that the beans were grown and packed in France—otherwise, Refuse Entry.

⁵ Ivy gourd (*Coccinia grandis*) is prohibited into Hawaii.

⁶ Fruits receiving cold treatment may enter at these additional ports: Gulfport, MS; Seattle, WA; and Wilmington, NC.

⁷ If the prescribed refrigeration period is met upon arrival, the treated commodity may enter at any port of entry in the U.S. staffed by PPO. However, if the prescribed refrigeration period is unmet upon arrival, then the commodity may enter only at a North Atlantic Port, Gulfport, MS; Seattle, WA; or Wilmington, NC.

⁸ Must be accompanied by a phytosanitary certificate stating that, "These tomatoes were grown in registered greenhouses in the Brittany region of France."

⁹ If the tomatoes transit fruit fly supporting areas of Europe and South America, they must be sealed by the Ministry of Agriculture of France and the official seal must appear on the phytosanitary certificate.
