AgDiscovery: Coppin State University

Last Modified:

Explore careers in plant, animal, and environmental sciences and agribusiness through experiential learning and workshops. You'll learn directly from USDA scientists how the U.S. Government protects America's food system.

You will live on the university's campus in Baltimore, MD, and interact with faculty and the neighboring community. You'll be engaged in a variety of laboratory

exercises, activities, and field trips to agricultural research centers and laboratories.

Coppin State University is a model urban, residential liberal arts university within the University System of Maryland, located in the northwest section of the City of Baltimore. The university offers academic programs in the arts and sciences, teacher education, nursing, graduate studies, and continuing education. An HBCU (historically black colleges and universities), Coppin State has a culturally rich history as an institution that delivers quality educational programs and community outreach services. It offers 53 majors and 9 undergraduate degree programs. A fully accredited institution, Coppin State continues to grow and diversify its academic programs to contribute to the workforce demands of the State of Maryland and the country at large.
