NVAP Training Modules for Accreditation Renewal

Last Modified:

[Print](#)

NVAP Training Modules are available in the following formats:

1. Lectures at [upcoming veterinary conferences](#)
2. Online (as described below)

Online

For accreditation renewal, carefully read the following:

1. You must know your six- digit National Accreditation Number (NAN) to access each module Certificate of Completion. If you do not know your NAN, please contact your local [NVAP Coordinator](#).
2. You must retain your Certificate of Completion.
 - The information contained on the certificate will be needed for accreditation renewal when you submit your application.
 - Keep your Certificate of Completion forever. You may be requested to display your Certificate of Completion during periodic training audits.
 - At the conclusion of each module, be prepared to print your Certificate of Completion or save it in PDF format to a secure file.

3. Category I Accredited Veterinarians must complete three units of AAST anytime within their 3-year renewal period to renew their accreditation. Similarly, Category II Accredited Veterinarians must complete six units of AAST anytime within their 3-year renewal period.
4. **Modules completed for previous accreditation renewals may be retaken in the current renewal period.**
5. The accreditation renewal process is available at [Veterinary Accreditation | Renewal Instructions](#). Do not submit copies or originals of any Certificate of Completion to APHIS. If you do not know your accreditation renewal date, please contact your [NVAP Coordinator](#).
6. NVAP strongly recommends you **not** postpone the renewal process until just before your accreditation expires. The database you access to take your APHIS-Approved Supplemental Training and retrieve your certificates of completion, as well as the database you access to apply for renewal of accreditation, may be unavailable at any time due to maintenance schedules or technical problems outside our control.
7. Each module of AAST represents one unit of training and takes approximately 1 hour to complete. AAST may be completed free of charge by selecting the title of the Training Module links below.

If a Knowledge Review page fails to load or function, try the F5 key to refresh your browser. If this fails to load the Knowledge Review content, let us know using the “[Report an error](#)” button on that page, and we will help you navigate past that Knowledge Review.

Notice: We are experiencing technical issues with the Report an Error button located on the Modules. Please use the new [Report Error form](#) as we work to correct the problem.

- [AAST Module Names and Descriptions](#)
