**Veterinary Health Certificate for Export of  
Day Old Chicks from the United States of America to Hong Kong**

**Veterinary Authority**

**Date Of Issue**

**Certificate Number**

UNITED STATES DEPARTMENT OF AGRICULTURE

**Certification Statements:**

1. The day old chicks come from parent stock which have been subject to a diagnostic test at a sample rate of not less than \_\_\_ birds for H5 and H7 avian influenza with negative results within 14 days immediately preceding the day on which the eggs are put in to the incubator for hatching. Results listed.
2. The day old chicks come from an establishment or a hatchery which is regularly inspected and that these premises are recognized as being free from Newcastle disease and Avian Influenza and are not situated in an infected zone for these diseases.
3. The day-old-chicks are from parental stock which have been Pullorum tested with negative reaction.
4. The day-old chicks come from flocks which are free from Avian Encephalomyelitis.
5. The birds will be examined by a USDA accredited veterinarian within 24 hours of departure and allowed to depart if found to be free from clinical signs of disease.
