

June 2006

## **IMPORT HEALTH REQUIREMENTS OF MALAYSIA FOR FROZEN PORCINE SEMEN EXPORTED FROM THE UNITED STATES**

The porcine semen must be accompanied by a U.S. Origin Health Certificate issued by a veterinarian authorized by the U.S. Department of Agriculture and endorsed by a Veterinary Services (VS) veterinarian. The certificate must provide the names and addresses of the consignor, consignee, and semen collection center; the total number of semen doses in the shipment; the import permit number; the means of transportation; complete identification of the donor boars; and the semen collection date. In addition, the certificate must include the following certification statements and the dates of the indicated testing.

### **CERTIFICATION STATEMENTS**

1. The United States was free of African swine fever, Classical swine fever (hog cholera), and foot-and-mouth disease for the 12 months prior to collection of the semen for export and currently is free of these diseases.
2. The AI center was free of Aujeszky's disease (pseudorabies), brucellosis, leptospirosis, porcine enteroviral encephalomyelitis, porcine dermatitis and nephropathy syndrome (PDNS), porcine reproductive and respiratory syndrome (PRRS), postweaning multisystemic wasting syndrome (PMWS), swine vesicular disease, and transmissible gastroenteritis for the 6 months prior to collection of the semen for export.
3. The AI center is under the supervision of a USDA-accredited veterinarian.
4. The donor boars were resident at the AI center for at least 6 months prior to collection of the semen for export.
5. The donor boars were healthy and free of evidence of infectious disease at the time of collection of the semen for export.
6. The semen was collected and processed in a sanitary manner and will be transported in tanks that are new or that have been cleaned and disinfected.

### **TEST REQUIREMENTS**

Donor boars must be tested as prescribed below, with negative results, within 6 months before to 6 months after semen collection. All tests must be performed at a laboratory acceptable to USDA.

1. Brucellosis: Buffered *Brucella* antigen test (specifically, the card test) OR tube agglutination test at a 1:50 dilution

2. PRRS:

Immunoperoxidase monolayer assay (IPMA) OR indirect  
fluorescent antibody (IFA) test at a 1:20 dilution OR ELISA

Health Certificate No. \_\_\_\_\_  
(Valid only if the USDA Veterinary  
Seal appears over the Certificate No.)

**U.S. ORIGIN HEALTH CERTIFICATE FOR EXPORT OF  
FROZEN PORCINE SEMEN FROM THE UNITED STATES TO  
MALAYSIA**
