Species and scientific name	Number of birds	Identification marks leg ring no.

II. Origin

Name and address of premises of origin: _____

Name and address of exporter: _____

III. Destination

Name and address of consignee: _____

IV. Health Information:

I, the undersigned USDA Accredited Veterinarian, hereby certify that the said birds:

- (a) Are identified by leg rings². - (may be deleted for psittacine and passerine birds).
- (b) Were born and reared in the territory of the United States, or² have been resident in the United States for at least 45 days immediately prior to exportation.
- (c) Were kept for at least the recent 45 days prior to shipment to Israel in a State of origin free from Notifiable Avian Influenza (NAI) as defined in the Terrestrial Animal Health Code of the OIE.
- (d) Were kept for at least the recent 45 days prior to shipment to Israel in an area which in a radius of 10 km has been free from Newcastle disease as defined in the Terrestrial Animal Health Code of the OIE.
- (e) They have been confined on the premises under official supervision for at least 30 days prior to dispatch and effectively protected from contact with other birds.²

Or they have been isolated for at least 10 days prior to export and have been subjected to a test for the detection of H5N1 antigen or genome³, carried out on a sample taken not earlier than on the third day of isolation.²

- (f) Have not been vaccinated against paramyxoviruses and all types of avian influenza.
- (g) Were examined by me within 4 days prior to shipment and were found healthy and free from clinical signs or symptoms of infectious or contagious diseases.
- (h) Were caged in new, clean containers in compliance with international and IATA standards.

¹ No more than 2 pet birds.

² Delete as appropriate.

³ As prescribed in Chapter 2.3.4 of the Manual of Diagnostic Tests and Vaccines for Terrestrial Animals.

Health Certificate No. _____
