The animals are to be sent from:
(Place of export)

To:
(Place of destination)

Means of transport:

Name and address of consignor:

.....

Name and address of consignee:

.....

IV. Health information

I the undersigned, USDA accredited veterinarian, certify that the animals identified in section I of this certificate meet the following conditions:

1. The country of export is officially free from European brown hare syndrome.

- 2. The animals originate from premises, which have not had viral hemorrhagic disease, myxomatosis, Encephalitozoon cuniculi, sylvatic plague, treponematosis, and Tyzzer's disease diagnosed in the colony in the previous six months.
- 3. Within 30 days prior to export to Israel, the animals were examined and found to be healthy and free from clinical signs or symptoms of infectious or contagious disease (myxomatosis and viral haemorrhagic disease) and showed no signs of external parasites or skin disease.
- 4. Within 30 days prior to export to Israel, the animals were serologically tested for Tularemia in a USDA approved laboratory with a negative result.
- 5. Within 7 days prior to export to Israel the animals have been treated for fleas and ticks using an effective insecticide.
- 5. The animals were examined today and were found to be free from signs of infectious or contagious diseases and fit for travel.
- 6. The rabbits were caged and dispatched conforming to the I.A.T.A regulations.

V. The certificate is valid for 3 days. In the case of transport by ship the time is prolonged by the time of the voyage.
