**Veterinary Health Certificate for Live Fish, Fertilized Eggs, and Gametes of
Tilapia Lake Virus (TiLV) – Susceptible Species to the United States**

Veterinary Authority*	Date Of Issue*	Certificate Number*
------------------------------	-----------------------	----------------------------

I, the undersigned veterinarian of the competent authority, certify that the live animals described above meet the following conditions:

1. **EITHER** A. Tilapia from this population to be exported tested negative for TiLV within thirty (30) days prior to export per the World Organization for Animal Health (OIE) **OR** a laboratory testing method reviewed and approved by the USDA prior to export. Sampling procedures used an assumed pathogen prevalence of two (2) percent, with a corresponding confidence level of ninety-five (95) percent. **AND**
B. Samples were collected by an official veterinarian, or certifying official, representing the Competent Authority.

OR A. The facility of origin participates in an ongoing TiLV monitoring program for species susceptible to TiLV, by testing negative twice annually for a minimum of two (2) consecutive years, with at least three (3) months between tests. **AND**
B. Populations were sampled utilizing an assumed pathogen prevalence of two (2) percent, with a corresponding confidence level of ninety-five (95) percent, and found negative for TiLV. **AND**
C. Samples were collected by an official veterinarian, or certifying official, representing the Competent Authority, and tested per the World Organization of Animal Health (OIE) **OR** a laboratory testing method reviewed and approved by the USDA prior to export.
2. No OIE-listed disease(s) affecting tilapia was/were reported at the premises of origin within sixty (60) days prior to export.
3. The tilapia originate in the exporting country **OR** were legally imported and verified to be of equal health status before entering the population for export.
4. The tilapia were inspected by an official veterinarian of the exporting country's Competent Authority within seventy-two (72) hours prior to export, and showed no clinical signs of disease.
5. All shipping containers are new, **OR** have been properly cleaned and disinfected prior to use.
6. The shipment will ship directly to the United States with no stops en route other than those provided for on the USDA import permit.

After the animal inspection, this health certificate is valid for seventy-two (72) hours prior to export.
