<a href="#">2020-APHIS-05397-F</a>	Raynor, Jennifer	Wesleyan University	7/22/2020	8/19/2020	I am requesting data on the number of occurrences of wildlife damage, by resource category (e.g. "Agriculture - Livestock") and damage agent (e.g. Coyotes), at the county-year level, for the lower 48 states, for the longest time series available. I am interested in all resource categories and damage agents available. I am requesting this data in a machine-readable format, such as txt, CSV, Excel, SAS, STATA, etc. The information I need is similar to the "Program Data Report C" at <a href="https://www.aphis.usda.gov/aphis/ourfocus/wildlifedamage/pdr/?file=PDR-C_Report&amp;p=2018:INDEX;">https://www.aphis.usda.gov/aphis/ourfocus/wildlifedamage/pdr/?file=PDR-C_Report&amp;p=2018:INDEX</a> ; however, I need an identifier for the county in which damage occurred. Also, I need a way to identify unique events. For example, if wolves damage 2 sheep and 2 calves in the same depredation event, I would want to count this as 1 wolf damage occurrence to "Agriculture - Livestock". If it is easier for the agency, I would be happy to receive a database that includes the specific resources damaged/threatened, but I would need an event level identifier. I do *not* need any personally identifiable information - an anonymized event level identifier (e.g. event A, B, C) meets my needs. (Date Range for Record Search: From 01/01/1950 To 07/21/2020)

2020-APHIS-05448-F	Anderson, Greta	Western Watersheds Project	7/24/2020	8/21/2020	United States Fish and Wildlife received a (FOIA) request from Ms. Greta Anderson with Western Watersheds Project requesting the following: Requesting all records pertaining to livestock conflict in Mexican wolf habitat on the Slash Ranch in Cantron County, New Mexico, since June 1, 2020. By records, I mean, any document, correspondence, attachment, recordings, phone logs, field observations, emails, meeting notes, photographs, or any other information that would provide me with insight into what the agency knows and how and when they knew it regarding recent Mexican wolf depredations on livestock at this specific location. I am particularly interested in verifying the public allegations the ranchers are making regarding the wolf depredations and helping to confirm or refute their claims. I have no other way of obtaining this information. I would like all records from June 1, 2020 through the date of search, as this is an ongoing issue. I have tried to tailor this request narrowly so as to limit the information we seek to what should be currently available as they pertain to recent events.
2020-APHIS-05220-F	Swanson, Conrad	-	7/9/2020	8/6/2020	Requesting the USDA's depredation permit granted by U.S. Fish and Wildlife this year permitting the geese culling program in Denver. I am also requesting the name of the processor that euthanizes and processes the geese collected from Denver's Parks.

2020-APHIS-05330-F	Auer, Jurgen	P+W Metallbau GmbH & Co. KG	7/16/2020	8/17/2020	Request confirmation of shipment and consent of identity. The situation was that we shipped goods to the United States by ship. These goods were stored on wooden storage trays. Upon arrival in Houston animals were found in these wooden storage shells by the customs officials. For our insurance, we need documents that show or prove the condition when the goods are delivered to the port. This can be, for example, pictures, videos or samples or documents which prove that live animals were in the wooden packaging. Our supplier for the storage trays has certainly made a mistake here, but we must prove it now. I hope, that when the goods arrived at the customs area in Houston, the inspectors took pictures or found evidence showing the living insects. With these documents we can prove the damage to the insurance company.

2020-APHIS-05542-F	Gurley, Raymond	-	7/30/2020	8/27/2020	<p>Telework agreements for all Aphis personnel and data related to gender of employees granted telework status. I am seeking information pertaining to APHIS employees who have been granted the ability to work from home through a number of mechanisms. If possible, I would like to break this information down by the gender of employees who have been granted such work arrangements. Per our phone conversation, I believe there are several ways such arrangements are made for APHIS employees, e.g., by making residences Official Duty Stations (ODS), by granting exemptions to the one day per week agency telework policy (i.e., 100% telework), or by having employees grandfathered into such agreements. The information that would be most pertinent to me would be a list of employees with no Personally Identifiable Information (PII), who have their ODS listed as a residence and employees who have telework agreements which allow them unlimited telework, with each employee's gender placed next to the record. I am most interested in employees with a residence address as their ODS who are not actually field employees. For example, I understand that VMOs cover large territories, so it makes sense for them to be stationed from a central location (i.e., a residence). However, there are other employees who do not conduct field work and are organizationally grouped into the Strategy &amp; Policy section of an agency, but still allowed to list their residence as their ODS. My request could be filled out as follows. 1.) Number of APHIS employees ##### No. Males ##### No. Females ##### 2.) Number of employees working from ODS residence address ##### No. Males ##### No. Females ##### **Also broken out into the below categories: No. with primary field responsibilities ##### No. with primary data responsibilities (strategy, policy, etc.) ##### 3.) Number of employees working under unlimited telework agreement ##### No. Males ##### No. Females ##### (Date Range for Record Search: From 7/1/2010 To 7/31/2020)</p>
