There were 10 surveillance inspections conducted at 6 different sites for a total of 100 fish sampled this month. Samples are targeted to moribund and fresh mortalities when possible. All sites were scheduled for monthly or bimonthly sampling. Routine harvest of market-size fish continued. The water temperatures began to increase in response to the warming air temperatures. There were no cages confirmed this month. All sites with fish in the water were Category 1 as of the end of the month.
