August 2015	129	0	18368
September 2015	100	0	18468
October 2015	70	0	18538

There were 7 surveillance inspections conducted at 7 different sites for a total of 70 fish sampled this month. Samples are targeted to moribund and fresh mortalities when possible. All sites were scheduled for monthly sampling. The water temperatures began to decrease in response to the cooler air temperatures. There were no cages confirmed this month. There was one Category 2, suspect, site, due to a single suspect sample. This result is being investigated. All other sites with fish in the water were Category 1 as of the end of the month.
