Thank you for your interest in National Veterinary Stockpile (NVS) preparedness. A secure website is available for Federal, State, and Tribal officials engaged in NVS planning and preparedness activities. The website for NVS planners contains sensitive information, such as after action reports/improvement plans, planning tools, example of State, Tribe, and Territory NVS Plans, questions and answers, and the NVS Logistics Catalog, to assist them in developing and maintaining an NVS plan. If you are an NVS planner and wish to access the NVS planners website, email a request to nvs@usda.gov. The NVS staff will respond promptly.
