# List of SARS-CoV-2 Cases

Most recently identified case locations are listed first. Unless otherwise specified, **the animal(s) had exposure to a probable or confirmed human with COVID-19.**

\***PCR**: real-time reverse transcription polymerase chain reaction; **Ab**: virus neutralizing antibody

**Footnote 1:** Samples collected as part of planned and targeted active surveillance of a specific animal, with known or suspected exposures to a person with COVID-19 or other exposure to SARS-CoV-2, to better understand risk factors for SARS-CoV-2 transmission.

**Footnote 2:** The COVID-19 status of human(s) associated with the case is unknown and/or under investigation.
