4. Procedures
   4.1 Overview
   4.2 Assignment of Administration Inspection Reviews
   4.3 Preparation and Distribution of AIR
   4.4 Firm Responsibilities when Responding to AIR
   4.5 Review of Incoming AIR
   4.6 Request for Additional/Clarifying Information Licensee
5. Summary of Revisions
1. **Purpose and Scope**

The purpose of this document is to provide guidance to employees on the procedures for processing Administrative Inspection Reviews (AIR).

The AIR is an annual review of records on file with the Center for Veterinary Biologics (CVB) for active licensees and permittees to ensure the information is accurate and complete. This annual review provides open communication between the regulatory authority and the regulated entity and facilitates the review of all other submissions. This authority is granted under title 9, *Code of Federal Regulations* (9 CFR), part 116.5(a).

Administrative Inspection Review documents will be electronically sent from the CVB, Inspection and Compliance (IC). Validated information regarding the AIR documents will be electronically submitted by the licensee/permittee for review.

2. **Definitions**

2.1 **Administrative Inspection Review (AIR):** A review of information on file with the CVB by the active licensee/permittee to validate accuracy and completeness of the data regarding all aspects of the regulatory process. The components of this review are specific to each licensee and permittee; this may include reports from CVB’s databases, certified documents, and a generated list of requested information about the licensee and permittee. These documents are reviewed for sufficiency and authenticated by the licensee’s official liaison.

2.2 **Licensing, Special Requests, Testing and Information System (LSRTIS) Database:** A secure internet system that maintains an integrated, real-time, automated information management system for CVB. Refer to the Program Documentation file located on the [ ] for complete instructions of use.

2.3 **LSRTIS – Mail Log:** A module within the LSRTIS database in which documents are routed and tracked.

3. **Responsibilities**

3.1 **Export Document Examiner, IC,** or those acting in their capacity, shall receive incoming mail.

3.2 **Biologics Compliance Assistants (BCAs),** or those acting in their capacity, shall finalize any outgoing correspondence. The BCAs are also responsible for LSRTIS updates for personnel information.
3.3 **Biologics Specialists (Specialists),** or those acting in their capacity, shall provide assistance, when necessary for review of incoming submissions.

3.4 **Product Specialist,** or those acting in this capacity, shall provide assistance when necessary, and follow up on any information that may be necessary. They are also responsible for updates to serial release information.

3.5 **Legal Instrument Examiner (LIE), Program Assistant (PA) or Records Management personnel,** or those acting in their capacity, shall perform updates to the appropriate database entries, when necessary. They may contact the Product Specialist, or designates, for any questions or issues with the documents.

3.6 **Lead Biologics Compliance Assistant (Lead BCA),** or those acting in their capacity, shall verify documents prior to submission to the licensee/permittee and validate the review process has been completed prior to closing the request.

4. **Procedures**

4.1 **Overview**

The CVB-IC sends AIR requests to the licensed firms on an annual basis. This request usually consists of verification of reports containing the firms’ data pertaining to licensed or unlicensed products. The majority of these reports are produced from the LSRTIS databases.

4.2 **Assignment of Administration Inspection Reviews**

The BCA, or those acting, will draft AIR documents based upon a set schedule of firms for each month. They will also initiate Mail Log items by following procedures in **CVB-WI-0144, Processing Incoming Administrative Inspection Review (AIR) Documents by CVB.** The Mail Log number is the identifier used to track progress with the AIR.

4.3 **Preparation and Distribution of AIR Documents**

The process will be completely electronic and up to 12 reports may be generated to be submitted to biologics manufacturers.

Follow **CVB-WI-0145, Preparation of Administrative Inspection Review.** Some documents are not submitted to the firms for specified years. The current work instruction will determine the listing of reports to be sent.
4.4 Firm Responsibilities when responding to AIR

4.4.1 All reports and directions will be uploaded and submitted via to the NCAH Portal the firm’s primary liaison. A submittal sheet (CVB-TEM-0047) will be attached to indicate the reports that should be included in the submission. Hard copies will be sent for those firms that are not enabled for the NCAH Portal.

4.4.2 Each report should be reviewed for accuracy by the licensee/permittee in accordance with the instructions provided. The manufacturers should utilize the drawing mark-ups and/or annotations through Adobe comments, or any other suitable means, to indicate the changes needed.

4.4.3 The submittal sheet and reports, with comments, can be returned back to the CVB via the NCAH Portal. Hard copies may also be mailed to the CVB, if desired by the manufacturer.

4.4.4 See CVB Notice 15-08, Changes to the Administrative Inspection Review Program, for more information.

4.5 Review of Incoming Documents for AIR.

See CVB-WI-0144 for specific processes.

4.5.1 Receipt of Documents

Documents will be submitted electronically. If submitted hard-copy, each item will be scanned in and the mail log will become the official record of received items.

4.5.2 Review of Documents and Updating Information in LSRTIS

Many of the attachments will have corrections that need to be validated and entered into LSRTIS in a timely fashion. Different positions within the Center are responsible for this review and data entry. See CVB-WI-0144.

4.5.3 If at any time there are questions or issues that need to be brought back to the firm, the Product Specialist, IC, will be the point of contact for CVB personnel.

4.6 Requests for Additional or Clarifying Information

4.6.1 If there are questions regarding the information submitted, the CVB responsible person has three options.
4.6.1.1 Return the item in question to the licensee/permittee requesting more information or a clarification of information. This can be done in an email, which is added to the Mail Log item.

4.6.1.2 Contact the liaison via phone or email to clarify information. If a phone call, attach the phone log to the Mail Log.

4.6.1.3 Return the mail log to the manufacturer with “Request Info from Submitter” child loop to respond to question.

4.6.2 This information should be informationally linked to the original Mail Log item for tracking purposes, if a new Mail Log item is created.

NOTE:
1. There will not be an acknowledgement of receipt to the firm if there are no issues in regard to the submission. There may be correspondence with the liaison if there is any follow-up needed, usually within 90 days of receipt.

2. The AIR documents are kept in the CVB Mail Log; therefore, documents will not be routinely printed and/or filed by Records Management. In cases of additional correspondence, files will be kept within the Records Management, Administrative Inspection Review files.

5. Summary of Revisions

Revision .03
- Updated information regarding job titles not reflected in the latest revision.
- Section 5: Summary of Revisions added.

Revision .02
- Updated document numbers referenced throughout the document.
- Document alphanumeric number has changed from CVBSOP0027.01 to CVB-SOP-0028.02
- Information updated regarding job positions/duties. Updated procedures that only form of communication should be by letter or portal; email should not be utilized any longer.
