2. HEADQUARTERS RESEARCH FACILITY (Name and Address, as registered with USDA, include Zip Code)  YALE UNIVERSITY 1 HILLHOUSE AVENUE PO BOX 208365 NEW HAVEN, CT 06520 (203) 785-2525			

3. REPORTING FACILITY (List all locations where animals were housed or used in actual research, testing, teaching, or experimentation, or held for these purposes. Attach additional sheets if necessary.)

FACILITY LOCATIONS(sites)
See Attached Listing

**REPORT OF ANIMALS USED BY OR UNDER CONTROL OF RESEARCH FACILITY (Attach additional sheets if necessary or use APHIS FORM 7023A)**

A. Animals Covered By The Animal Welfare Regulations	B. Number of animals being bred, conditioned, or held for use in teaching, testing, experiments, research, or surgery but not yet used for such purposes.	C. Number of animals upon which teaching, research, experiments, or tests were conducted involving no pain, distress, or use of pain-relieving drugs.	D. Number of animals upon which experiments, teaching, research, surgery, or tests were conducted involving accompanying pain or distress to the animals and for which appropriate anesthetic, analgesic, or tranquilizing drugs were used.	E. Number of animals upon which teaching, experiments, research, surgery or tests were conducted involving accompanying pain or distress to the animals and for which the use of appropriate anesthetic, analgesic, or tranquilizing drugs would have adversely affected the procedures, results, or interpretation of the teaching, research, experiments, surgery, or tests. (An explanation of the procedures producing pain or distress in these animals and the reasons such drugs were not used must be attached to this report)	F. TOTAL NO. OF ANIMALS (Cols. C + D + E)
4. Dogs	1		21		21
5. Cats			13		13
6. Guinea Pigs	1	96	21		117
7. Hamsters		578	64		642
8. Rabbits		23	162		185
9. Non-Human Primates	18	112	37		149
10. Sheep	2	1	8		9
11. Pigs	3	3	45		48
12. Other Farm Animals					
Goat			9		9
13. Other Animals					
Ferrets		290	34		324
Mastomy	28				
Peromyscus		64	37		37

**ASSURANCE STATEMENTS**

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all the exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

**October 1, 2006 – September 30, 2007**  
**Explanation for IACUC Approved Exceptions to USDA Regulations**  
**Yale University 16-R-0001**

**Feeding**

Seventeen Macaca mulatta, Category C, underwent food regulation to motivate learning. Animals were given a reduced ration of monkey chow during the testing period of up to five days per week. During this time, their diets were supplemented by food rewards earned during testing and by food treats given as part of the enrichment program. The investigator and the veterinary staff monitored the animals' health status. Daily assessments included body condition, food consumption, behavior, and hydration status. Animals were weighed weekly and returned to full feed when not on study. Animals did not exhibit any overt discomfort or distress.

**Watering**

Three Macaca mulatta, Category C, and seven Macaca mulatta, Category D, underwent water regulation to enhance performance and motivation to learn and perform complex tasks. Fluid intake was sufficient to maintain the animals' health and well-being. It was accomplished by permitting the animals to earn fluid to satiety each day during behavioral training and testing, providing *ad libitum* chow and treats and stopping fluid regulation when animals were not on study. Daily assessments included body condition, food consumption, behavior, and hydration status. Animals were weighed weekly and did not exhibit any overt discomfort or distress.

**ASSURANCE STATEMENTS**

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and an Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.
