SUPPLEMENTARY INFORMATION:

Background

On July 26, 2016, we published in the *Federal Register* (81 FR 49112–49137, Docket No. APHIS–2011–0009) a proposal to revise the Horse Protection Act regulations in 9 CFR part 11 to improve our enforcement of the Act and regulations. The proposed rule provides that the Animal and Plant Health Inspection Service (APHIS) will train and license inspectors to inspect horses at horse shows, exhibitions, sales, and auctions for compliance with the Horse Protection Act. The proposed rule also proposes changes to the list of devices, equipment, substances, and practices that can cause soring or are otherwise prohibited under the Act and regulations, as well as other amendments pertaining to horse inspections and show management.

Comments on the proposed rule were required to be received on or before September 26, 2016. We are extending the comment period on Docket No. APHIS–2011–0009 for an additional 30 days. This action will allow interested persons more time to prepare and submit comments.

Clarification

As part of our proposed rule, we proposed to retitle § 11.2 as “Prohibited actions, practices, devices, and substances” and to prohibit all action devices, pads, and substances applied to a horse’s limbs. Also prohibited is any practice involving a horse, and, as a result of such practice, such horse suffers, or can reasonably be expected to suffer, physical pain or distress, inflammation, or lameness when walking, trotting, or otherwise moving. These proposed changes were intended to successfully and significantly reduce

the number of sore horses shown, exhibited, sold, and auctioned. In our proposed changes to § 11.2, we included provisions in proposed paragraph (a)(3) of that section stating that the use of any weight on horses up to 2 years old, except a keg or similar conventional horseshoe is prohibited, as is the use of a horseshoe on horses up to 2 years old that weighs more than 16 ounces. In keeping with the intent of our other proposed changes, we are considering changing proposed paragraph (a)(3) to read “The use of any weight on horses, except a keg or similar conventional horseshoe, is prohibited.” We will consider all comments we received on this provision throughout the comment period so that those who have already commented know we will continue to consider their views.

Authority: 15 U.S.C. 1823–1825 and 1828; 7 CFR 2.22, 2.80, and 371.7.

Done in Washington, DC, this 16th day of September 2016.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

Airworthiness Directives; The Boeing Company Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for certain The Boeing Company Model 757 airplanes. This proposed AD was prompted by reports of single and multiple uncommanded spoiler panel extensions during flight when there was a hydraulic system failure. This proposed AD would require replacing certain spoiler power control units (PCUs) with new or changed PCUs. We are proposing this AD to prevent an
