**MILLER JAROD**

**8321 ZIMMERMAN ROAD  
HAMBURG, NY 14075**

**Inspection**

**Type: ROUTINE INSPECTION**

**Date: APR-14-2003**

(1) General requirements. The surfaces of housing facilities -- including perches, shelves, swings, boxes, houses, dens, and other furniture-type fixtures or objects within the facility -- must be constructed in a manner and made of materials that allow them to be readily cleaned and sanitized, or removed or replaced when worn or soiled. Furniture-type fixtures or objects must be sturdily constructed and must be strong enough to provide for the safe activity and welfare of nonhuman primates. Floors may be made of dirt, absorbent bedding, sand, gravel, grass, or other similar material that can be readily cleaned, or can be removed or replaced whenever cleaning does not eliminate odors, diseases, pests, insects, or vermin. Any surfaces that come in contact with nonhuman primates must:

The Lemur house is made of wood. This surface should be either painted , or covered with other material , which makes impervious to water, to facilitate cleaning , and disinfecting.

Correct by: 5/15
