

The collection of this information is authorized by the Plant Protection Act of 2000. The information will be used to determine eligibility to receive all types of permits. No permit will be issued until this application has been approved.

U.S. DEPARTMENT OF AGRICULTURE  
ANIMAL AND PLANT HEALTH INSPECTION SERVICE  
BIOTECHNOLOGY REGULATORY SERVICE  
**APPLICATIONS FOR PERMIT OR COURTESY PERMIT UNDER 7 CFR 340**  
(Genetically Engineered Organisms or Products)

**1. NAME, ADDRESS, TELEPHONE, AND EMAIL OF APPLICANT**

**Name:** PII  
**Position:** PII PII I  
**Organization:** betaseed  
**Organization Unique ID:** BTS  
**Address:** Betaseed, Inc.  
1788 Marschall Road  
PO Box 195  
Shakopee, MN 55379  
**County/Province:** Scott  
**Township/Island:**  
**Day Telephone:** PII  
**FAX:** PII  
**Alternate:** PII  
**Email 1:** PII betaseed.com  
**Email 2:**

**2. INTRODUCTION TYPE**

- Importation  
 Interstate Movement  
 Interstate Movement and Release  
 Release

**3. PERMIT TYPE**

- Standard Permit  
 Courtesy Permit

**4. PURPOSE OF PERMIT**

- Industrial Product  
 Pharmaceutical Product  
 Phytoremediation  
 Traditional

**5. CONFIDENTIAL BUSINESS INFORMATION VERIFICATION (CBI)**

**Does this application contain CBI?**  Yes  No

**CBI Justification:**

The information claimed as confidential within this application includes personal, site and or molecular information. US data privacy law (and similar laws in other jurisdictions) protect individuals from the misuse of their personal information. The gene description category includes names and information about genes, promoters and expressed traits. The Freedom of Information Act ("FOIA"), 5 U.S.C. section 552, specifically exempts from release "trade secrets and commercial or financial information obtained from a person and privileged or confidential" ("Exemption 4"), 5 U.S.C. section 552(b)(4). Exemption 4 applies where the disclosure of information would be likely to cause substantial harm to the competitive position of the owner, or where, in the case of voluntarily submitted information, the submitter would be less likely in the future to share data with the agency voluntarily. Information on gene description and commercial development falls within this definition, and is the type of information accorded trade secret protection by the courts under Exemption 4 of the Freedom of Information Act. The release of information about the genes and promoters in the vectors will directly provide competitors with the knowledge of the precise genetic sequence - that KWS/Betaseed has found to be most desirable. If this information is disclosed, the competitors will have access to the structure of the KWS/Betaseed products, with the consequences outlined above.

**6. REQUEST TYPE**

New  Amendment  Renewal  Variance  Amendment, Renewal and/or Variance

**Amendment/Renewal Description:**

**Previous Permit Number(s):**

**7. MEANS OF MOVEMENT**

Via post, commercial shipper or company vehicles.

**8. VARIANCE VERIFICATION**

**Have you previously applied for variance(s) that you wish to apply to this permit?**  Yes  No

**Variance Number(s):**

**If so, describe in a brief summary how the variance will be applied:**

N/A

**9. REGULATED ARTICLE**

**Scientific Name:** Beta vulgaris ssp. vulgaris

**WARNING:** Any use of ePermits to make materially false, fictitious, or fraudulent statements or representations is subject to civil penalties of up to \$250,000 (7 U.S.C. § 7734(b)) or punishable by a fine of not more than \$10,000, or imprisonment of not more than 5 years, or both (18 U.S.C. §1001).

**Common Name:** Sugarbeet

**Any biological material (e.g., culture medium, or host material) accompanying the regulated Article during movement:**

None

**Country and locality where the donor organism, recipient organism, and vector or vector agent were collected, developed, and produced:**

Germany

**Processes, Procedures, and Safeguards Description:**

The transgenic lines were produced by Agrobacterium mediated transformation technology. During regeneration and multiplication of the plant material elimination of the bacterium was accomplished by treatment with appropriate antibiotics. All plants to be released were generated by multi-generational seed propagation steps. It is known that agrobacteria are not seed transmitted. As an additional proof, PCR was performed to verify the absence of agrobacteria (the primers used refer to the chromosome of the agrobacteria to confirm the absence of bacteria cells).

**10. ARTICLE SUPPLIER AND/OR DEVELOPER**

11. PHENOTYPES/GENOTYPE

1) **Phenotypic Designation Name:** Glyphosate resistant sugarbeet  
**Identifying Line(s):** H7-1  
**Construct(s):** PV-BVGT08  
**Mode of Transformation:** Disarmed Agrobacterium tumefaciens transformation  
**Phenotype Description:** glyphosate tolerance

A description of the anticipated or actual expression of the altered genetic material in the regulated article and how that expression differs from the expression in the non-modified parental organism.

**Phenotype(s)**

HT - glyphosate tolerance

**Genotype(s)**

Gene of inte

**13. DESIGN PROTOCOLS****Production Design**

A detailed description of the purpose for the introduction of the regulated article including detailed description of the proposed experimental and/or production design:

[ ] [ ]

**Destination or Release Description**

A detailed description of the intended destination (including final and all intermediate destinations), uses, and/or distribution of the regulated article (e.g., greenhouses, laboratory, or growth chamber location; field trial location, pilot project location; production, propagation, and manufacture location; proposed sale and distribution location):

[ ]

**Confinement Protocols**

A detailed description of the proposed procedures, processes, and safeguards which will be used to prevent escape and dissemination of the regulated article at each of the intended destinations:

[ ]

**Final Disposition Method:**  Destruction/Devitalization  Other  Storage in Contained Facility

**Final Disposition Description:**

[ ]

**14. ATTACHMENTS****Attachments**

Betaseed Design Protocol Vers 2.2 (1/7/2011 @ 02:31 PM)

Betaseed SOP Regulated Breeder Vers 2 Final (1/7/2011 @ 02:32 PM)

Betaseed SOP Regulated Commercial Production Vers 1.2 (1/7/2011 @ 02:32 PM)

**15. ADDITIONAL INFORMATION**

Monsanto Company and KWS SAAT AG submitted on June 27, 2006 a petition to APHIS for a determination of nonregulated status for H7-1 sugar beet and any progeny derived from crosses between H7-1 and other sugar beet. This petition was assigned APHIS number 03-323-01p and granted in March 2005. Additionally, a comprehensive food and feed safety and nutritional assessment of MON 89788 was submitted to the FDA and the consultation with the agency was completed in 2004. Differences between the non-GE sugarbeet and H7-1 sugarbeet are described in the petition for deregulation (03-323-01p). Basically, the GE sugarbeet (H7-1) produces a modified EPSPS protein which imparts tolerance to the herbicide glyphosate to these plants. This simplifies weed management in sugarbeet fields planted to varieties carrying this gene. This permit request is made to support the cultivation, harvest, storage and processing of Event H7-1 sugar beet. By court order, Event H7-1 seeds not planted prior to August 13, 2010 are now considered to regulated articles. This permit requests authorization for trials with Event H7-1 in compliance with the Plant Protection

**WARNING:** Any use of ePermits to make materially false, fictitious, or fraudulent statements or representations is subject to civil penalties of up to \$250,000 (7 U.S.C. § 7734(b)) or punishable by a fine of not more than \$10,000, or imprisonment of not more than 5 years, or both (18 U.S.C. §1001).

---

Act and regulations promulgated by APHIS to regulate the introduction of genetically engineered organisms.

---

**16. COURTESY JUSTIFICATION**

I, PII, hereby certify that the information in this application and all attachments is complete and accurate to the best of my knowledge and belief.

I acknowledge this is not an application to move or import select agents, the genes expressing select agents, or the toxins made by the select agents, as described in 9 CFR 121.

I will not introduce the regulated articles described in this application until APHIS has deemed the application complete and has granted the permit. By signing this permit, I agree to comply with any and all state, local, and tribal laws and regulations that may apply to the introduction of the articles described in this applications.

If there are any changes to the information disclosed in this application, I will contact APHIS.

**17. SIGNATURE OF RESPONSIBLE PERSON****18. DATE**

PII

December 30, 2010
