### Food and Nutrition Service

#### Agency Information Collection Activities: Proposed Collection; Comment Request: Supplemental Nutrition Assistance Program Waivers Under Section 6(o) of the Food and Nutrition Act

**AGENCY:** Food and Nutrition Service, USDA.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on the proposed information collection. This is a revision of a currently approved

collection. The purpose of Section 6(o) of the Food and Nutrition Act is to establish a time limit for the receipt of benefits under the Supplemental Nutrition Assistance Program (SNAP) for certain able-bodied adults who are not working. The provision authorizes the Secretary of Agriculture, upon a State agency's request, to waive the provision for any group of individuals if the Secretary determines "that the area in which the individuals reside has an unemployment rate of over 10 percent, or does not have a sufficient number of jobs to provide employment for the individuals." As required in the statute, in order to receive a waiver the State agency must submit sufficient supporting information so that the United States Department of Agriculture (USDA) can make the required determination as to the area's unemployment rate or sufficiency of available jobs. This collection of information is, therefore, necessary in order to obtain waivers of the SNAP time limit.

**DATES:** Written comments must be received on or before December 1, 2014.

**ADDRESSES:** Comments are invited on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- ways to enhance the quality, utility, and clarity of the information to be collected; and
- ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate, automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.
