

# Carcass Removal Scenario using NIMS Tiered Response Principle – Stafford Act Incidents

Local

Does local jurisdiction or Disaster District have capability to safely remove & dispose of animal carcasses?

1

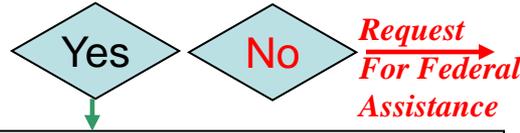

Utilize local resources, equipment and contractors to remove/dispose of carcasses. File for reimbursement under Public Assistance (if available) for allowable expenses

State provides information and guidance as needed.

State

Does State have capability to safely remove & dispose of animal carcasses?

2

State contracts directly with vendors to assist local jurisdictions with removal and disposal of carcasses. State pays contractors directly and files for reimbursement under Public Assistance (if available) for allowable expenses.

Federal agencies provide information and guidance as needed.

Federal

FEMA: Which Federal Agency has the best capability to accomplish the mission?

3

Army Corps Of Engineers

USDA or Other Fed

If ACE has existing MA for debris removal, FEMA issues Task Order to include removal/disposal of carcasses (ACE pays contractors directly). Coordinated through State requesting agency. State cost share of up to 25% may apply if Mission Assignment is Direct Federal Assistance.

USDA or Other Federal Agency (OFA) utilizes Coast Guard BOA contract for removal/disposal of carcasses (USDA or OFA pays contractors directly). Coordinated through State requesting agency. State cost share of up to 25% may apply if Mission Assignment is Direct Federal Assistance.
