Funding Opportunities

Last Modified:

APHIS leads efforts to keep U.S. plants and animals healthy. Each year, we distribute millions of dollars to producer organizations, State and Federal agencies, Native American Tribes, universities, and others nationwide to support projects that help strengthen our Nation's safeguarding system and prevent, control, or mitigate pests or diseases.

Closing Soon Application due July 31 2024

[PPA 7721: Plant Pest and Disease Management and Disaster Prevention Program Funding Opportunity FY 2025](#)

Application due July 31 2024

Fondos: Up to \$63 million

Resumen: APHIS is offering funding opportunities for projects organized around specific goal areas that represent critical needs and opportunities to strengthen against, prevent, detect, and mitigate invasive plant pests and diseases.

Our Funding Programs

APHIS funding opportunities are available at various times throughout the year. Use the links below to learn more about each opportunity.

[Chronic Wasting Disease Management and Response Funding Opportunities](#)

[Funding is available for projects that help States, Tribes, universities, and others control chronic wasting disease in wild and farmed cervids, such as deer and elk.](#)

[Plant Pest and Disease Management and Disaster Prevention Program](#)

[Funding is available for projects that strengthen and safeguard our Nation's agricultural infrastructure by preventing, detecting, and mitigating invasive plant pests and diseases.](#)

[National Animal Disease Preparedness and Response Program](#)

Funding is available for projects that help States, Tribes, producers, and others prevent, prepare for, and respond to high-consequence animal disease outbreaks.

National Animal Health Laboratory Network Funding Opportunities

Funding is available for projects that enhance the early detection of high-consequence animal diseases and improve emergency response capabilities in veterinary diagnostic laboratories that are part of the network.

National Clean Plant Network

Funding is available for projects that expand or create new clean plant centers capable of producing and maintaining disease-free plant material for U.S. specialty crop producers.
