# Pet Travel From the United States to Jamaica

Last Modified:

## Travel Requirements Based on Pet Type

**Carefully read ALL of the requirements related to your pet on this page.**

- This page provides the most recent entry requirements and can change without notice.
- It is the responsibility of the veterinarian to make sure the pet has met all health requirements of the destination country before issuing a health certificate.
- Failure to meet the requirements may result in problems gaining certificate endorsement or difficulties upon arrival in the destination country.
- Health certificates must be legible, accurate, and complete.

### Dogs and Cats

The requirements to take your pet dog or cat to Jamaica are listed in the below international health certificates. If you are a veterinarian preparing the export health

certificate and plan to submit this to APHIS for endorsement via VEHCS, you can proceed directly to VEHCS without downloading the PDFs of these certificates.

[International Health Certificate - Dogs](#) (353.24 KB)

[International Health Certificate - Cats](#) (273.73 KB)

## **Birds**

To take a pet bird to Jamaica, a permit is required and may be obtained by writing to:

Director of Veterinary Services  
Ministry of Agriculture and Lands  
Kingston 6  
Jamaica

The permit will outline the health requirements that must be met for entry. Jamaican regulations require that all animals enter only through the port of Kingston or through the Palisadoes Airport.

The port of entry must be specified in the application permit. If circumstances are warranted, the

Director of the Veterinary Services of Jamaica has the authority to allow the animal to enter through another port. All animals will be inspected upon arrival.

## **Other Pets**

For pet travel requirements not listed, APHIS has not been officially informed by the foreign country about the requirements for your pet's travel. We recommend that you contact a government official of the country you are traveling to for more information.

## **Country of Destination Contact Information**

[World Organisation for Animal Health: Members](#)

[U.S. Department of State: Foreign Embassies and Consulates](#)

■

## **Countries Participating in the European Union**

Austria

Belgium

Bulgaria

Croatia

Cyprus

Czech Republic

Denmark

Estonia

Finland

France

Germany

Greece

Hungary

Republic of Ireland

Italy

Latvia

Lithuania

Luxembourg

Malta

Netherlands

Northern Ireland\*

Norway\*\*

Poland

Portugal

Romania  
Slovakia  
Slovenia  
Spain  
Sweden  
Switzerland\*\*

\* Northern Ireland is part of the United Kingdom (UK), but will continue to follow European Union (EU) requirements even though the UK is no longer part of the EU.

\*\* Norway and Switzerland are **not** part of the EU but have adopted EU legislation for import of most species of live animals.

## Important Travel Considerations

### Considerations for airline travel and cruises:

Airlines and shipping lines have their own policies and requirements for transporting pets. Check with your airline or shipping representative to determine what requirements they may have.

[Learn how you can improve the safety of dogs and cats during air travel.](#)

[View additional information for pet owners, airlines, and others about APHIS endorsement of international health certificates](#) (239.52 KB).

If pets or support animals accompany you on a cruise, you must comply with entry rules for **every** country or port where your pet or support animal exits the ship.

### Will you be returning to the United States with your pet?

[View APHIS Requirements](#)

**ALERT:** If you're traveling with a dog, be aware that the [CDC has additional requirements for bringing a dog into the United States](#). You must follow CDC's requirements, or your dog will not be allowed to enter the United States.

**If you are transiting (passing through) the European Union:**

If your pet is traveling through (transiting) a country in the European Union (EU) on the way to a third, non-EU country, you will also need a transit health certificate for your pet for the EU. The transit health certificate will be the same as if your pet's final destination was the EU country. Use the information and steps above under "Travel Requirements Based on Pet Type" to determine which health certificate should be used. [View a list of EU countries](#).
