IACUC Approved Exceptions to USDA Regulations or Standards

The IACUC has approved an exception for non-human primates enrolled in studies that require restricted fluid intake for performance of behavioral tasks. Eighteen non-human primates were involved.

The IACUC has approved an exception for non-human primates used in a study that require a daily ration reduction compatible with maintaining a weight at approximately 95% of their free-feeding levels. While approved by the IACUC no non-human primates were food restricted in 2012.

The IACUC has approved an exception for social housing of selected non-human primates for scientific reasons. Twenty non-human primates were involved.
