USDA Exception Summary
Oct. 1, 2011 - Sept. 30, 2012

Houston campus:

There were no exceptions to USDA standards for protocols at the Houston campus during the reporting period. The IACUC approved 1 exemption to the canine enrichment program for the reporting period, as listed below

#1: Description: One canine protocol was approved to perform single housing of dogs for up to 3 weeks following surgery.

The social housing exemption for the dog protocol was required to prevent trauma and licking at the incision site following a surgical procedure on the trunk and forelimb of the dog. This exemption was reviewed and approved by the IACUC and the attending veterinarian. There were no (0) dogs were utilized for these procedures during the reporting period.

Bastrop campus: There were no exceptions to USDA standards for protocols at the Bastrop campus during the reporting period.

Smithville campus: There were no exceptions to USDA standards for protocols at the Smithville campus during the reporting period.
