2017-APHIS-02002-F	Astudillo, Carla	-	2/9/2017	3/10/2017	I'm requesting the last three years of inspection reports and enforcement actions for all New Jersey individuals and facilities regulated by Animal and Plant Health Inspection Service. This data should include data found in the USDA Animal Care Search Tool which includes New Jersey facilities regulated by the Animal Welfare Act and the Horse Protection Act. I would like the data in a machine readable format, preferably in a spreadsheet. (Date Range for Record Search: From 02/09/2014 To 02/09/2017)	-
2017-APHIS-02004-F	NEICE, MARVIN	-	2/9/2017	3/10/2017	I am requesting a copy of the USDA Animal and Plant Health Inspection Service (APHIS) online database containing the inspection records and annual reports for every commercial animal facility in the U.S.—including zoos, breeders, factory farms, and laboratories which was publicly available on the USDA (APHIS) website until February 2017 when it was removed. Thousands of documents detailing animal welfare violations nationwide have been removed from the website of the United States Department of Agriculture (USDA), which has been posting them publicly for decades. These are the inspection records and annual reports for every commercial animal facility in the U.S.—including zoos, breeders, factory farms, and laboratories. These records have revealed many cases of abuse and mistreatment of animals, incidents that, if the reports had not been publicly posted, would likely have remained hidden. This action plunges journalists, animal welfare organizations, and the public at large into the dark about animal welfare at facilities across the country. The records document violations of the Animal Welfare Act, the federal law that regulates treatment of animals used for research and exhibition. The USDA Animal and Plant Health Inspection Service (APHIS) maintained the online database until February 2017 when it was taken down from their website. I would like a copy of the entire database or an export from it in the form of a CSV, XML, or JSON file. As I am not asking for a specific subset of information, but rather the full list of information from a database in common formats (CSV, XML, or JSON) which can be performed utilizing native software export features in less than 60 seconds. The database may be emailed to (b) (6) or sent via US Postal Mail on a CD, DVD, or Flash Memory Card. Thank You, Marvin Neice	-

2017-APHIS-02005-F	Fite, Katie	Wildlands Defense	2/6/2017	3/7/2017	<p>Pursuant to the Freedom of Information Act, 5 U.S.C. Sec. 552-et seq., Wildlands Defense (WLD) hereby requests that you send the following documents, all of which are matters of public record and should be easily available to you. Our request is for Wildlife Service's (WS) records related to the scrutiny, oversight, regulatory activity, communications including between any agencies and/or individuals, and all other information related to the use of DRC-1339 (Starlicide) in any form/preparation. DRC-1339 is an avian killing compound used in various forms to kill ravens, crows and other native corvids. We are requesting this information for its use in Idaho, Oregon, Utah and Nevada from Jan. 1, 2012 through the present. WE ARE REQUESTING THESE DOCUMENTS FOR CORVID-RELATED CONTROL/KILLING ACTIVITIES. All documents related to, describing, documenting, referencing and/or containing any reference to or information about use of DRC-1339 (Starlicide) by APHIS and/or other parties that may be being used in conjunction with, or knowledge of, WS – including potentially Sage-grouse Working Groups involving various agencies and ranchers or others. All WS or other agency or party documents related to any "research projects" or studies where the chemical may be used in relation to/involving sage-grouse habitat and/or population boosting efforts or other grouse-related actions. WLD is requesting all WS internal and external communications (with other agencies, individuals, law enforcement, media, researchers, or any other parties) and documents, related to manner of use, oversight and monitoring of DRC-1339 or other chemicals used to kill or "control" the common raven. This includes effects on target and non-target species. All of the above-requested information includes any reports, memos, e-mails/electronic/text messages communication of any kind, letters, phone logs and phone call records, meeting minutes, maps, data, GPS or other geolocator information, or any other information related to the above-requested information. 2017-APHIS-02082-F	Lane, Anna	-	2/3/2017	3/6/2017	This is a request for both the Annual reports & the Inspection reports. I have a question as well - why was this information pulled from the USDA website to begin with? My understanding is this data represents some results from tax-payer funded animal testing labs. I would like an explanation as to the logic for pulling this type of research data from the website - as I'm sure your group is aware, this info is nearly impossible to find elsewhere and I thought this was protected under the Animal Welfare Act.	4/12/2017

2017-APHIS-02179-F	Treseder, Emma	-	2/16/2017	3/17/2017	We are English solicitors appointed in relation to a cargo of mandarins which previously came to the attention of the USDA. Our clients, Siembra Alta S.A.C., arranged for the carriage of a cargo of 1,456 cartons of Peruvian mandarins from Callao, Peru to Philadelphia. The cargo was carried on board "MSC SARAH " and arrived into Philadelphia port on 2 September 2015. The cargo was carried in container number TRIU8211379 and under bill of lading number MSCUL3587635. We understand from previous correspondence with USDA-APHIS-PPQ that whilst the cargo arrived into Philadelphia on 2 September 2015, the container did not pass cold treatment until 30 September 2015. We are trying to find out what took place during the intervening 28 days. According to our clients' surveyor, the container failed to meet USDA cold treatment requirements in transit and subsequently underwent extended cold treatment. In making this Freedom of Information Request we ask for: 1. Confirmation of whether the container initially failed cold treatment when it arrived into port on 2 September; 2. If so, details of why it failed and what action the vessel was required to undertake in order for the container to pass; 3. A copy of the "556 Cold Treatment Report "; and 4. Any other documents relevant to the cold treatment assessment of the relevant container and details of the USDA's decisions concerning that container. 2017-APHIS-02233-F	Powell, Hilary	WSBT (CBS)	2/21/2017	3/21/2017	This is a request under the Freedom of Information Act. I request that a copy of the following documents be provided to me: as email or electronic records primarily and if available, or written copies if the electronic form is not available. I am requesting and documents or correspondence from Animal and Plant Health Inspection Service (APHIS) which may either concern or be addressed to Potawatomi Zoo at 500 S. Greenlawn in South Bend, Indiana 46615 in the manner of inspection reports, regulatory correspondence, research facility annual reports, and enforcement records between the dates of January 1, 2016 to present date. In the event that access to any of the requested records is denied, please note that the FOIA provides that if only portions of a requested file are exempted from release, the remainder must still be released. I therefore request that I be provided with all non-exempt portions which are reasonably segregable. I further request that you describe the deleted material in detail and specify the statutory basis for the denial as well as your reasons for believing that the alleged statutory justification applies in this instance. This request is not meant to be exclusive of any other records which, though not specifically requested, would have a reasonable relationship to the subject matter of this request. In order to help to determine my status to assess fees, you should know that I am reporter with WSBT-TV (CBS) reporting on issues of a public interest. This request is made as part of news gathering and not for a commercial use. I note that time is of the essence in this matter. There is a great need for prompt disclosure so that the released information may more adequately inform the public since our zoo is periodically open throughout the month and next month. Thank you for your consideration of this request. (Date Range for Record Search: From 01/01/2016 To 02/19/2017)	-
