The ASPCA also seeks to learn more about any communications the Agency has had with Pinnacle and its representatives or partners from January 1, 2018 to present. Finally, the ASPCA seeks to learn whether any of the 2018 inspections of Pinnacle resulted in "teachable moments," as defined and referenced in the USDA's Animal Welfare Inspection Guide and to obtain copies of any and all "teachable moments" documents. Below you will find a list of the ASPCA's June 6, 2018 request along with specific examples of the types of records the ASPCA is requesting.</p> <ul style="list-style-type: none"> <li>• Any and all records referencing the purpose or focus of the Inspection on or about April 12, 2018;</li> <li>o For example: Please include all documents, recordings, reports, messages, inspectors notes, photographs, e-mails, and memorandum prepared by the USDA that reference the April 12, 2018 Inspection. <a href="#">2018-APHIS-05035-F</a>	Dean, Rhonda	-	7/6/2018	8/3/2018	On June 24, Sunday, 2018 a flock of Canadian geese approximately 200 or more were removed from Bluegrass Memorial Garden - Dignity Cemetary located in Jessamine court Kentucky - 4915 Harrodsburg Rd. Nicholasville. The property manager says she made 2 payments to whoever took the geese one payment was to only relocate them - not to extinguish them - both payments were over 3,000.00 total. I think it was Wildlife Manager USDA. As of Feb. 2018 my children and i have spent hundreds of dollars to donations for Vets & rehab people to help the sick & injured birds we found there on a weekly basis often in 12yrs. we only missed visiting the flock 9 days. I have called many people to find out if the flocks was actually relocated or if they are dead. We have our hearts invested and its important for us to know. I have rescued 6 dogs and many birds in my 61 yrs. If possible I hope you might help us know what happened to our beloved flock.	-
