Dear Ms. May:

This is in response to your July 12, 2010, Freedom of Information Act (FOIA) request in which you are seeking documents regarding Miami Seaquarium's (MSQ) disaster contingency plan to provide emergency sources of water and/or arrangements for relocating marine mammals. Any proposed Disaster Plan submitted to Animal and Plant Health Inspection Service (APHIS) regarding the pending contamination of the MSQ water supply by the gulf oil spill. You are also seeking a copy of the MSQ Hurricane preparedness plan. Your request was received in this office on July 12, 2010, and assigned case number FOIA 10-546.

The Animal Welfare Act (AWA) does not have a disaster plan requirement. Although a written "emergency" contingency plan for marine mammals must be submitted to and approved by the Deputy Administrator, the AWA regulations do not require APHIS to maintain these plans. Nevertheless, Agency employees conducted a thorough search of their files and have advised the FOIA office that our Agency has no records responsive to this request.

Further, AC does not have access to the Hurricane Preparedness Plan. This plan may, or may not be a State requirement. However, it is not required by the AWA.

You may appeal our no records determination. If you choose to appeal, your appeal must be in writing and must be received within 45 days of the date of this letter to:

Administrator  
Animal and Plant Health Inspection Service  
Ag Box 3401  
Washington, D.C. 20250-3401

Please refer to FOIA 10-546 in your appeal letter and add the words "FOIA Appeal" to the front of the envelope. To assist the Administrator in reviewing your appeal, provide specific reasons why you believe modification of the determination is warranted.
