RE: Freedom of Information Request (*Animal Health: Veterinary Biologics*)

Dear Sir or Madam:

This is to request under the FOIA the following information that led to the most recent approval and licensing of the Imrab 3 TF (thimerosal-free) rabies vaccine by Merial. It is a 3-year vaccine. Information requested:

- Summaries of clinical trials showing the efficacy of various doses;
- Summaries of toxicity studies.

REC 2 - 2009

I am not certain of the name of the official document that contains this information. Perhaps it is a document similar to the NADA (New Animal Drug Approval) documents one can find online for animal drugs approved by the FDA. I do not want extensive amounts of information. If the information I am requesting is given in the insert that accompanies the vaccine, that insert would be sufficient. I hope this is specific enough.

I am willing to pay up to \$40 for this information; I do not believe it should cost that, inasmuch as the first 2 hours of search is free. I am requesting this information as an individual. If I need to be more specific, please let me know.

Thank you.
