Subject FOIA REQUEST

ATTN: FOIA OFFICER

I'm making a FOIA request of the Rabies vaccine manufacturers, and the USDA regulators, for specific and suspected contraindications for administration of their respective rabies vaccines in canine and feline populations. I do not want the blanket disclaimer included in the the vaccine insert."FOR USE IN HEALTHY ANIMALS". I am requesting contraindications in the presence of specific disorders and situations, known and or suspected of causing adverse

reactions, or affecting establishment of immunity, that would have bearing on decision of whether or not to administer the vaccine at any given time. This does not fall under confidential business information, but attests to efficacy and safety. Thank you,
