Dear USDA FOIA Officer:

On behalf of the National Association for Biomedical Research (NABR) and pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, et seq. as amended, I respectfully request a copy of all documents associated with FOIA Case No. 11-189, which was received by the USDA on January 13, 2011. I also respectfully request a copy of all documents associated with FOIA Case No. 11-212, which was received by the USDA on January 21, 2011. Please provide a copy of the original requests, the USDA's response and any other documents, emails or other correspondence related to the requests or processing of the responses.

I agree in advance to the redaction of any information the agency is permitted to withhold under Exemption 6 of the FOIA 5 U.S.C. § 552(6).

I request a waiver of fees because my interest in the records is not commercial and I am requesting these records on behalf of a nonprofit organization. The disclosure of the information requested will contribute significantly to public understanding of the agencies response to document requests.

If the request will involve expenses in excess of \$50 and the fee waiver request is denied, please notify me by telephone at \_\_\_\_\_, or by email at [acardon@nabr.org](mailto:acardon@nabr.org), so that NABR may decide whether to pay the fees, narrow its request, or appeal the denial of the fee waiver request.

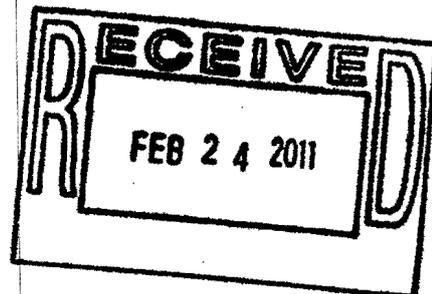

If you have any questions or need any additional information about this request, please feel free to contact me by telephone or email. Thank you for your prompt attention to this matter. I look forward to receiving your response.

Sincerely,

Andrew Cardon
