Fumigation Site Checklist

Name of Inspector: Eric Chamberlain, PHSS	Location of Facility Inspected: Cilco Terminal, Bridgeport, CT Tarpaulin	Date of Inspection: 2007

A. Fumigator should have on hand:

	Yes	No	N/A		Yes	No	N/A
1. Does the tarpaulin have holes or tears in it?		X		18. Is the fumiscope calibrated for methyl bromide?	X		
2. Is there an ample supply of sand snakes or water snakes available to do the fumigation?		X		19. Is instrumentation available and calibrated to take readings using Phosphine and Sulfuryl Fluoride?			X
3. Are the sand snakes or water snakes filled?			X	20. Has the drying tubes in each fumiscope been changed with new Drierite® or Ascarite® or both?	X		
4. Is loose sand available?	X			21. Is the volatilizer in good running order?	X		
5. Is there an ample supply of burlap or padding material on site?	X			22. Does the volatilzer reach required temperatures over 150° Fahrenheit or higher at the time of introduction?	X		
6. Is there enough masking tape or duct tape to do the job on site?	X			23. Is there a sufficient heat supply to heat a commodity before and during fumigation?	???		
7. Does the fumigator have spray equipment and pesticide on site?		X		24. Are there exhaust fans?	X		
8. Are tarpaulin supports on site?	X			25. Does the fumigator have sampling tubes (Draegger) on site?	X		
9. Are there sufficient and suitable fan or fans available for use? Note: Household fans are not acceptable!	X			26. Are the sampling tubes expired?		X	
10. Is there a sufficient supply of UL approved extension cords to do the job? Is ground fault protection required? i.e. is the area wet, or the potential for it to become wet?	X			27. Is there a calibrated weight scale on site to measure fumigant during introduction?	X		
11. Are there any 3 prong adapters to hook-up equipment? The use of 3-prong adapters is not recommended. Extension cords, outlets and equipment should match up. Using a 3-prong adapter could result in no grounding protection.		X		28. Is there an ample supply of warning fumigation placards on site?	X		
12. Is there enough fumigant on hand to do the job?	X			29. Does the fumigator have SCBA (self-contained breathing apparatus) on site?	X		
13. Is the fumigant stored in a locked cage or locked area? Does the storage area have the proper warning signs for the fumigant stored?"	X			30. Does the fumigator have a halide detector? (Chemical or Physical)	X		
14. Is there a gas introduction line. (There are no holes or tears in the line).	X			31. Does the fumigator have a current pesticide applicators license?	X		
15. Does the fumigator have a fumiscope (T/C Gas Analyzer)?	X			32. Does the lighting system appear adequate for the work area (intensity, glare, etc)?	???		
16. Is the fumiscope in good working order?	X			33. Is there adequate ventilation to prevent poisoning from the fumigant?	X		
17. Has the fumiscope been recalibrated within the last 12 months?	X						

	Yes	No	N/A		Yes	No	N/A
34. Is the required 30 foot distance maintained to take readings by the officer? Measurement will be done with a tape measure and not the use of eyeballing the distance. To ensure the 30 foot exclusion zone is maintained, measure and mark the distance. Erect barriers or warning sign to ensure the exclusion zone is clearly understood.	X			35. Is the area sheltered from the wind, rain or any other climatic condition?	X		
36. Does the fumigation site have an impervious surface?	X			37. Is the area around the fumigation site a non-work area?	X		
38. Is the fumigation site near an electrical source of power or within a reachable distance?	X						
B. PPQ Officer should have on hand:							
1. Does the PPQ Officer have a fumiscope?	X			2. Is the fumiscope in good working order?	X		
3. Has the fumiscope been recalibrated? (Within the last 12 months)	X			4. Is the PortaSens Phosphine detector calibrated for Phospine?			X
5. Has the drying tubes in each fumiscope been changed with new Drierite® or Ascarite® or both?	X			6. Does the PPQ Officer have a halide detector? (Chemical or physical)	X		
7. Does the PPQ Officer have a gas detector kit and detector tubes?	X			8. Are the detector tubes within their expiration date or kept under refrigeration?		???	
9. Does each PPQ officer have access to APHIS Form 429, clipboard, calculator, pen or pencil?	X			10. Is a thermometer used to check space temperature and commodity temperature?	X		
11. Is the thermometer in good working order?	X			12. Is a copy of the treatment manual maintained for fumigations in the offices? (or accessible by computer)	X		
13. Are all officers and supervisors pesticide trained (certified)?	X			14. Does each officer have a federal pesticide license?	X		
15. Does PPQ have SCBA (self contained breathing apparatus) for each employee doing fumigations?	X						
C. PPQ Office should have on hand:							
1. Is the officer's "Respirator Use Approval" form APHIS 258-R, Respirator Fit Test Record and Respirator Training records on file?	X			2. Is the officer's SCBA equipment in working order, have the monthly visual inspections been performed? Is the tank full?	X		
3. Has the officer received CPR training?	X			4. Are there emergency numbers posted and does the officer have communication available, i.e. cell phone, radio, etc.?	???

Quarantine Status

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for thisinformation is 0579-0102. The time required to complete this information collection is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

GAS CONCENTRATIONS (GRAMS PER CUBIC METER OR OZ. PER CUBIC FEET) (TO BE PREPARED FOR FUMIGATIONS WHEN GAS CONCENTRATION READINGS ARE REQUIRED WHILE TREATMENT IS IN PROGRESS)

Inspector	Date Time	front low	middle center	rear high
EC	10-27-06 09:40	72	71	71
EC	10-27-06 10:55	67	65	65

Detector Readings

Time Interval (hh:mm)	Detector Readings (PPM)

No Detector Readings

Remarks

Fumigation was reduced by 15 minutes due to an average concentration reading of greater than 65 at the 30 minute reading. Higher than normal readings are attributed to trying to add supplemental heat to enclosure too quickly. Fumiscope calibrated 12/05.

Remarks

Fumiscope calibrated 12/05. Fumigated at 3.5 lb. rate due to needing to apply additional heat to enclosure and that 4 lb. rate may of put fumigation at risk of having too much gas introduced. NOTE FROM SUPERVISOR: Discussed the reduction of gas vs. the air and commodity temperature. PHSS will discuss heating of commodity over a longer period of time at lower temperature so that the correct dosage can be introduced w/o risk of overshooting due to high air temp. In this case the commodity was heated at high temps over short period of time which is why he made decision to reduce gas by 1/2 pound.

Time Interval (hh:mm)	Detector Readings (PPM)

No Detector Readings

Remarks

Importer elected to fumigate in lieu of I.D. Fumiscope calibrated 01/2007. Due to unequal distribution of gas in the container at the thirty minute reading the fans were run for 15 extra minutes to help redistribute the gas. The time of exposure was reduced by 15 minutes due to high gas concentration readings taken after the fans were run for 15 extra minutes. The higher than normal readings may be due to: 1) difficulty in measuring the enclosure due to wind and/or 2) temperature inside the taurpalin raising due to the sun heating it.

Remarks

Pest determination - unknown Insecta eggs. Fumiscope calibrated 01/07. Fumigator changed gas introduction line running from the volatizer during gas introduction. Gas was coming out at a very slow rate. Changing the line fixed the problem.

Under Sections 411,412 and 414 of the Plant Protection Act(7 USC 7711,7712 and 7714) and Sections 10404 through 10407 of the Animal Health Protection Act (7 USC 8303 through 8306), you are hereby notified, as owner or agent of the owner of said carrier, premises, and/or articles, to apply remedial measures for the pest(s), noxious weeds, and/or article(s) specified in Item12, in a manner satisfactory to and under the supervision of an Agriculture Officer. Remedial measures shall be in accordance with the action specified in Item 16 and shall be completed within the time specified in Item 17.*

AFTER RECEIPT OF THIS NOTIFICATION, ARTICLES AND/OR CARRIERS HEREIN DESIGNATED MUST NOT BE MOVED EXCEPT AS DIRECTED BY AN AGRICULTURE OFFICER. THE LOCAL OFFICER MAY BE CONTACTED AT: 203-773-2040

16. ACTION REQUIRED

- [X] TREATMENT
- [ ] RE-EXPORTATION
- [ ] DESTRUCTION
- [ ] OTHER

Treatment Schedule: T104-a-1
A potential quarantine pest was found in this shipment. The shipment must be treated, re-exported, or destroyed. Please discuss options with an Agriculture Officer. Note: No cost in the remedial measures for this shipment will be incurred by The United States Government.
7 CFR 319.56

* Should the owner or owner's agent fail to comply with this order within the time specified below, USDA is authorized to recover from the owner or agent cost of any care, handling, application of remedial measures, disposal, or other action incurred in connection with the remedial action, destruction, or removal.

17. AFTER RECEIPT OF THIS NOTIFICATION COMPLETE SPECIFIED ACTION WITHIN (Specify No. Hours or No. Days): 48 Hours

18. SIGNATURE OF OFFICER: Vickie L. Henderson

ACKNOWLEDGEMENT OF RECEIPT OF EMERGENCY ACTION NOTIFICATION
I hereby acknowledge receipt of the foregoing notification.

Treatment Schedule: T104-a-1
A potential quarantine pest was found in this shipment. The shipment must be treated, re-exported, or destroyed. Please discuss options with an Agriculture Officer. Note: No cost in the remedial measures for this shipment will be incurred by The United States Government.
7 CFR 319.56
Importer opted for treatment in lieu of formal ID of pest.

* Should the owner or owner's agent fail to comply with this order within the time specified below, USDA is authorized to recover from the owner or agent cost of any care, handling, application of remedial measures, disposal, or other action incurred in connection with the remedial action, destruction, or removal.

17. AFTER RECEIPT OF THIS NOTIFICATION COMPLETE SPECIFIED ACTION WITHIN (Specify No. Hours or No. Days): 72 Hours

18. SIGNATURE OF OFFICER: Michael B. Douglas

ACKNOWLEDGEMENT OF RECEIPT OF EMERGENCY ACTION NOTIFICATION

I hereby acknowledge receipt of the foregoing notification.

(9)(q) A Agent Only (9)(q)

DATE AND TIME: 6/13/07 1000

19. REVOCATION NOTIFICATION

ACTION TAKEN: Fumigated with Methyl Bromide

SIGNATURE OF OFFICER: [signature]

Under Sections 411,412 and 414 of the Plant Protection Act(7 USC 7711,7712 and 7714) and Sections 10404 through 10407 of the Animal Health Protection Act (7 USC 8303 through 8306), you are hereby notified, as owner or agent of the owner of said carrier, premises, and/or articles, to apply remedial measures for the pest(s), noxious weeds, and/or article(s) specified in Item12, in a manner satisfactory to and under the supervision of an Agriculture Officer. Remedial measures shall be in accordance with the action specified in Item 16 and shall be completed within the time specified in Item 17.*

AFTER RECEIPT OF THIS NOTIFICATION, ARTICLES AND/OR CARRIERS HEREIN DESIGNATED MUST NOT BE MOVED EXCEPT AS DIRECTED BY AN AGRICULTURE OFFICER. THE LOCAL OFFICER MAY BE CONTACTED AT: **860-209-4821**

16. ACTION REQUIRED

- ☐ **TREATMENT**
- ☐ **RE-EXPORTATION**
- ☐ **DESTRUCTION**
- ☐ **OTHER**

Treatment Schedule: T104-a-1
A potential quarantine pest was found in this shipment. The shipment must be treated, re-exported, or destroyed. Please discuss options with an Agriculture Officer. Note: No cost in the remedial measures for this shipment will be incurred by The United States Government.
7 CFR 319.56, 7 CFR 330

* Should the owner or owner's agent fail to comply with this order within the time specified below, USDA is authorized to recover from the owner or agent cost of any care, handling, application of remedial measures, disposal, or other action incurred in connection with the remedial action, destruction, or removal.

17. AFTER RECEIPT OF THIS NOTIFICATION COMPLETE SPECIFIED ACTION WITHIN (Specify No. Hours or No. Days): **72 Hours**

Under Sections 411,412 and 414 of the Plant Protection Act(7 USC 7711,7712 and 7714) and Sections 10404 through 10407 of the Animal Health Protection Act (7 USC 8303 through 8306), you are hereby notified, as owner or agent of the owner of said carrier, premises, and/or articles, to apply remedial measures for the pest(s), noxious weeds, and/or article(s) specified in Item12, in a manner satisfactory to and under the supervision of an Agriculture Officer. Remedial measures shall be in accordance with the action specified in Item 16 and shall be completed within the time specified in Item 17.*

AFTER RECEIPT OF THIS NOTIFICATION, ARTICLES AND/OR CARRIERS HEREIN DESIGNATED MUST NOT BE MOVED EXCEPT AS DIRECTED BY AN AGRICULTURE OFFICER. THE LOCAL OFFICER MAY BE CONTACTED AT: **860-209-4821**

16. ACTION REQUIRED

- ☐ **TREATMENT**
- ☐ **RE-EXPORTATION**
- ☐ **DESTRUCTION**
- ☐ **OTHER**

Treatment Schedule: T104-a-1
A potential quarantine pest was found in this shipment. The shipment must be treated, re-exported, or destroyed. Please discuss options with an Agriculture Officer. Note: No cost in the remedial measures for this shipment will be incurred by The United States Government.
7 CFR 319.56
Importer opted for fumigation in lieu of formal ID of pest.

* Should the owner or owner's agent fail to comply with this order within the time specified below, USDA is authorized to recover from the owner or agent cost of any care, handling, application of remedial measures, disposal, or other action incurred in connection with the remedial action, destruction, or removal.

17. AFTER RECEIPT OF THIS NOTIFICATION COMPLETE SPECIFIED ACTION WITHIN (Specify No. Hours or No. Days): **48 Hours**
