Subject FOIA Request

Dear Sir or Madam,

I am requesting any documents, emails, transcripts of conversations, and any other type of documentation where the NY USDA WS program informed an official or employee of the City of Amsterdam NY that other service providers may be available and advised them of their right to choose other providers in regards to mitigating their American Crow problem, or any similar statement or information.

I am also requesting the exact dates and times the information and or documents were provided to the city.
